

PMG GROUP OS

Complete Testing & Verification Checklist — DETAILED

533 Test Items · Full Mode Descriptions · HOW IT WORKS for Every Item

Login: shershah_nawabi@pmggroup-llc.com / PMGAdmin2024!
Status: PASS | PARTIAL | FAIL | N/A
Each item has: HOW IT WORKS + behavior in each AI mode + EXPECTED RESULT + space for YOUR STATUS and NOTES.

SECTION 0: LOGIN & AUTHENTICATION

0.1 — Navigate to app root URL

HOW IT WORKS:
Open your browser and go to the app URL. The system should load the login page as the first screen. No authentication cookie exists yet, so the app redirects to the login form automatically.

IN AI AUTONOMOUS MODE:
Login page loads identically regardless of mode. Mode selection happens after login.

IN HYBRID MODE:
Same as AI Autonomous — login is mode-independent.

IN HUMAN CONTROLLED MODE:
Same as AI Autonomous — login is mode-independent.

EXPECTED RESULT:
Login page loads with no console errors, no blank screen, and no redirect loops.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

0.2 — Login page shows email + password fields

HOW IT WORKS:
The login form should display two input fields: one for email address and one for password. Both should be clearly labeled with placeholder text or labels above them.

IN AI AUTONOMOUS MODE:
Both fields visible. No mode-specific differences on login page.

IN HYBRID MODE:
Same — mode not active until after login.

IN HUMAN CONTROLLED MODE:
Same — mode not active until after login.

EXPECTED RESULT:
Both email and password input fields are visible, accessible, and accept typed input.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

0.3 — Login page has PMG branding

HOW IT WORKS:
The login screen should show PMG Group branding — either the PMG shield logo, "PMG Group" text, or the tagline. This confirms the app is properly themed.

IN AI AUTONOMOUS MODE:
Branding visible. Mode-independent.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Logo or "PMG Group" text is visible on the login page. The page uses PMG brand colors (crimson, navy).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

0.4 — Submit empty login form

HOW IT WORKS:
Click the login button without entering any credentials. The form should validate and show an error message — either inline validation under the fields or a toast notification.

IN AI AUTONOMOUS MODE:
Validation error shown. No crash or redirect.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Validation error appears (e.g., "Email is required"). The page does not crash or reload.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

0.5 — Submit wrong email

HOW IT WORKS:

Enter an email that does not exist in the database with any password and click login. The server should return an authentication error.

IN AI AUTONOMOUS MODE:

Error toast or inline error shown. No sensitive info leaked.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Error message like "Invalid credentials" appears. No stack trace or server error visible to user.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

0.6 — Submit wrong password

HOW IT WORKS:

Enter the correct admin email (shershah_nawabi@pmggroup-llc.com) but a wrong password. The server should reject the login.

IN AI AUTONOMOUS MODE:

Error toast shown. Account not locked (demo mode).

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Error toast or inline error shown. Login page remains accessible for retry.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

0.7 — Login with valid credentials

HOW IT WORKS:

Enter email: shershah_nawabi@pmggroup-llc.com and password: PMGAdmin2024! and click Login. The system authenticates against the database, creates a session cookie, and redirects to the Dashboard.

IN AI AUTONOMOUS MODE:

After login, Dashboard loads. No mode banner visible (AI Autonomous is default or no banner in auto mode).

IN HYBRID MODE:

After login, Dashboard loads with yellow "Hybrid Mode" banner at top.

IN HUMAN CONTROLLED MODE:

After login, Dashboard loads with blue "Human Controlled" banner at top.

EXPECTED RESULT:

Successfully redirects to Dashboard (Command Center) page. No errors.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

0.8 — Session persists on page refresh

HOW IT WORKS:

After logging in successfully, press F5 or click the browser refresh button. The app should reload and stay on the current page without redirecting back to login.

IN AI AUTONOMOUS MODE:

Session maintained. Dashboard reloads in current mode.

IN HYBRID MODE:

Same — session cookie preserved.

IN HUMAN CONTROLLED MODE:

Same — session cookie preserved.

EXPECTED RESULT:

Page reloads and stays logged in. No redirect to login screen.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

0.9 — Logout button in sidebar

HOW IT WORKS:

Look at the bottom of the left sidebar. There should be a LogOut icon with "Logout" text. Clicking it should destroy the session and redirect to the login page.

IN AI AUTONOMOUS MODE:

Logout button visible and functional in all modes.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Clicking logout returns to login page. Trying to navigate back shows login, not Dashboard.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

0.10 — Unauthorized API call (logged out)

HOW IT WORKS:
After logging out, try to access a protected page by navigating directly to the Dashboard URL. The API should return 401 and the app should redirect to login.

IN AI AUTONOMOUS MODE:
Redirects to login. No cached data shown.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Returns 401 unauthorized and redirects to the login page automatically.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

SECTION 1: GLOBAL LAYOUT & NAVIGATION

1.1 — Sidebar renders after login

HOW IT WORKS:
After successful login, the left sidebar should be visible. It contains navigation links, section groupings, and the logout button.

IN AI AUTONOMOUS MODE:
Sidebar visible on left with all sections. No mode-specific changes to sidebar structure.

IN HYBRID MODE:
Same sidebar structure.

IN HUMAN CONTROLLED MODE:
Same sidebar structure.

EXPECTED RESULT:
Sidebar is visible on the left side of the screen with all navigation items.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.2 — Sidebar shows Dashboard link

HOW IT WORKS:
The first item in the sidebar should be "Command Center" (Dashboard) with a LayoutDashboard icon from lucide-react.

IN AI AUTONOMOUS MODE:
Dashboard link visible with icon.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"Command Center" link with dashboard icon is the first sidebar item.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.3 — Sidebar shows 6 main sections

HOW IT WORKS:
Below Dashboard, the sidebar should list all 6 business sections: Outreach, CRM, Marketing, Production, Admin, and Finance.

IN AI AUTONOMOUS MODE:
All 6 sections visible. No sections hidden by mode.

IN HYBRID MODE:
Same — all sections accessible.

IN HUMAN CONTROLLED MODE:
Same — all sections accessible. AI features are hidden WITHIN pages, not the sections themselves.

EXPECTED RESULT:
All 6 sections (Outreach, CRM, Marketing, Production, Admin, Finance) are listed in the sidebar.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.4 — Sidebar shows Settings link

HOW IT WORKS:
At the bottom of the sidebar, there should be a Settings link with a gear icon. This opens the 10-tab Settings page.

IN AI AUTONOMOUS MODE:
Settings link visible at bottom.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Settings gear icon and "Settings" text visible at bottom of sidebar.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.5 — Sidebar section grouping labels

HOW IT WORKS:
Sections are organized under group labels: "Main" (Dashboard), "Revenue Engine" (Outreach + CRM), "Growth" (Marketing + Production), "Operations" (Admin + Finance).

IN AI AUTONOMOUS MODE:
Group labels visible when sidebar expanded.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Group labels "Revenue Engine", "Growth", "Operations" appear above their respective sections.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.6 — Sidebar collapse/expand toggle

HOW IT WORKS:
There is a chevron button (usually at top or bottom of sidebar) that collapses the sidebar to icon-only mode, giving more screen space to the main content area.

IN AI AUTONOMOUS MODE:
Toggle works. Sidebar collapses to icons only.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Clicking the chevron collapses sidebar to show only icons. Clicking again expands it back.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.7 — Collapsed sidebar shows icons only

HOW IT WORKS:
When the sidebar is collapsed, section labels and group labels should be hidden. Only the icons for each navigation item should be visible.

IN AI AUTONOMOUS MODE:
Icons visible, labels hidden.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
In collapsed state, only icons are visible. No text labels overflow or clip.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.8 — Active page highlighted in sidebar

HOW IT WORKS:
The currently active page should have a distinct visual style in the sidebar — typically a different background color, a left border, or a highlight.

IN AI AUTONOMOUS MODE:
Active item highlighted with crimson border or background.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Current page link has distinct styling (border, background) that clearly shows which page you are on.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.9 — Click each sidebar link

HOW IT WORKS:
Click every sidebar navigation item one by one (Dashboard, Outreach, CRM, Marketing, Production, Admin, Finance, Settings). Each should navigate to the correct page.

IN AI AUTONOMOUS MODE:
All links navigate correctly. No console errors.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Each click navigates to the correct page without any errors or blank screens.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.10 — Sidebar mobile behavior

HOW IT WORKS:
On screens smaller than ~768px, the sidebar should collapse into a hamburger menu (Sheet component). This prevents the sidebar from taking up too much screen space on mobile.

IN AI AUTONOMOUS MODE:
Hamburger menu replaces sidebar on small screens.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
On small screens, sidebar becomes a hamburger menu button. Full sidebar is hidden.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.11 — Mobile sidebar opens/closes

HOW IT WORKS:
On mobile, clicking the hamburger icon should open the sidebar as a slide-out sheet. Clicking a menu item or the close button should close it.

IN AI AUTONOMOUS MODE:
Sheet opens and closes smoothly.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Hamburger opens the sidebar sheet. Selecting a menu item navigates and closes the sheet.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.12 — Logout button visible in sidebar

HOW IT WORKS:
The LogOut icon with "Logout" text should be visible at the bottom of the sidebar, separate from the navigation sections.

IN AI AUTONOMOUS MODE:
Logout visible at bottom.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
LogOut icon + "Logout" text at bottom of sidebar is visible and clickable.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.13 — Global Search bar visible

HOW IT WORKS:
In the top header bar, there should be a search input with a magnifying glass icon. This is the global search that searches across all sections.

IN AI AUTONOMOUS MODE:
Search bar visible in header.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Search input with icon is visible in the top header bar.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.14 — Global Search opens overlay

HOW IT WORKS:
Clicking on the search bar or its icon should open a search overlay or dropdown where you can type a query and see results.

IN AI AUTONOMOUS MODE:
Search overlay opens with input focus.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Clicking search opens an overlay/dropdown. Input is focused and ready for typing.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.15 — Global Search returns results

HOW IT WORKS:
Type a keyword (e.g., "SecureNet" or "leads") in the search bar. The system should return matching items from across all sections of the app.

IN AI AUTONOMOUS MODE:
Results include AI-generated items and all content.

IN HYBRID MODE:
Same results. May include items with "Review" badges.

IN HUMAN CONTROLLED MODE:
Same results. May have fewer AI-generated items.

EXPECTED RESULT:
Typing a query returns relevant matching items from across sections. Results are clickable.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.16 — Notification Bell visible

HOW IT WORKS:
In the top header bar, there should be a bell icon showing the number of unread notifications as a badge/count.

IN AI AUTONOMOUS MODE:
Bell visible with unread count. More notifications from AI background activity.

IN HYBRID MODE:
Bell visible. Notifications include items needing review.

IN HUMAN CONTROLLED MODE:
Bell visible. Fewer automated notifications.

EXPECTED RESULT:
Bell icon visible in header with unread count badge showing a number.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.17 — Notification Bell dropdown

HOW IT WORKS:
Clicking the bell icon should open a dropdown panel showing a list of recent notifications with titles, descriptions, and timestamps.

IN AI AUTONOMOUS MODE:
Dropdown shows recent events from all AI agents.

IN HYBRID MODE:
Dropdown shows events including "Needs Review" items.

IN HUMAN CONTROLLED MODE:
Dropdown shows manual action confirmations.

EXPECTED RESULT:
Clicking bell opens dropdown with list of notifications. Each has title and timestamp.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.18 — Notification items display

HOW IT WORKS:
Each notification in the dropdown should show: a title (what happened), a description (details), and a timestamp (when it happened).

IN AI AUTONOMOUS MODE:
All three fields present per notification.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Each notification has a visible title, description text, and a relative or absolute timestamp.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.19 — "Mark as Read" on notification

HOW IT WORKS:
Each individual notification should have a way to mark it as read — either a button, a swipe, or clicking on it.

IN AI AUTONOMOUS MODE:
Mark as read works. Notification appearance changes.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Individual notifications can be marked as read. Visual change confirms the action.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.20 — "Mark All Read" button

HOW IT WORKS:
At the top or bottom of the notification dropdown, there should be a "Mark All Read" or "Clear All" button that marks all notifications as read at once.

IN AI AUTONOMOUS MODE:
All notifications marked read. Badge count goes to 0.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Clicking "Mark All Read" clears all unread badges. Count shows 0 or badge disappears.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.21 — Unread count updates

HOW IT WORKS:
When you mark individual or all notifications as read, the badge count on the bell icon should decrease accordingly.

IN AI AUTONOMOUS MODE:
Count decreases after marking read.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Badge count decreases when notifications are marked as read. Reaches 0 when all read.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.22 — Wallet Display visible

HOW IT WORKS:
The top header or sidebar should show the current AI wallet balance — this tracks how much budget is available for AI agent operations.

IN AI AUTONOMOUS MODE:
Wallet balance displayed (e.g., \$355.02 or \$360.29). Balance may show active spending.

IN HYBRID MODE:
Same display. Moderate spending rate.

IN HUMAN CONTROLLED MODE:
Same display. Minimal or no active spending.

EXPECTED RESULT:
Dollar amount visible in the header/sidebar area (e.g., \$355.02 or \$360.29).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.23 — Wallet balance value

HOW IT WORKS:
The wallet should show a specific dollar amount. In demo/dummy mode, this is a static value that does not actually deduct.

IN AI AUTONOMOUS MODE:
Shows a dollar amount. Static in dummy mode.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Shows a formatted dollar amount (e.g., \$355.02 or \$360.29). Not \$0 or blank.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.24 — AI Mode Toggle visible

HOW IT WORKS:
In the header area, there should be a mode indicator showing the current AI mode (AI Autonomous, Hybrid, or Human Controlled) with an icon.

IN AI AUTONOMOUS MODE:
Shows "AI Auto" or similar with Bot icon. Crimson color.

IN HYBRID MODE:
Shows "Hybrid" with Eye icon. Blue color.

IN HUMAN CONTROLLED MODE:
Shows "Human" or "Manual" with Hand icon. Yellow color.

EXPECTED RESULT:
Mode indicator is visible showing the current mode name and a matching icon.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.25 — AI Mode Toggle clickable

HOW IT WORKS:
Clicking the mode indicator should open a dropdown or dialog allowing you to switch between the three AI modes.

IN AI AUTONOMOUS MODE:
Dropdown opens showing all 3 mode options.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Clicking opens a selection with 3 options. Current mode is highlighted or checked.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.26 — AI Mode switch from header

HOW IT WORKS:
Select a different mode from the toggle dropdown. The entire app should update immediately — banners change, AI button visibility changes, badges change.

IN AI AUTONOMOUS MODE:
Switching to Hybrid adds yellow banner. Switching to Human adds blue banner and hides AI buttons.

IN HYBRID MODE:
Switching to AI Auto removes banner. Switching to Human hides AI buttons.

IN HUMAN CONTROLLED MODE:
Switching to AI Auto removes banner and shows all AI buttons. Switching to Hybrid adds yellow banner.

EXPECTED RESULT:
Mode switches immediately across the entire app. No page refresh needed.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.27 — [?] button visible per section

HOW IT WORKS:
When the sidebar is expanded, each section should show a [?] help icon on hover or permanently. This opens the guide overlay for that section.

IN AI AUTONOMOUS MODE:
Help buttons visible on all sections.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Help/guide [?] button shown near each sidebar section when sidebar is expanded.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.28 — Clicking [?] opens guide overlay

HOW IT WORKS:
Clicking any [?] button opens a centered modal card slideshow. It has a backdrop, progress bar pills at top, step content in center, and mode-aware tip at bottom.

IN AI AUTONOMOUS MODE:
Guide opens with crimson-tinted mode tip explaining AI Autonomous behavior for that section.

IN HYBRID MODE:
Guide opens with blue-tinted mode tip explaining Hybrid behavior.

IN HUMAN CONTROLLED MODE:
Guide opens with yellow-tinted mode tip explaining Human Controlled behavior.

EXPECTED RESULT:
Centered modal opens with progress pills, step content, and a colored mode tip box at bottom.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.29 — Guide overlay shows step content

HOW IT WORKS:
Each step in the guide shows a heading (step title), a description (what this feature does), and optionally a visual mockup or illustration area.

IN AI AUTONOMOUS MODE:
Step content visible with heading and description.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Each step shows a clear heading, descriptive text, and a mockup/visual area.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.30 — Guide step navigation

HOW IT WORKS:
The guide has Previous and Next buttons (or arrow buttons) to move between steps. Progress bar pills at top show which step you are on.

IN AI AUTONOMOUS MODE:
Navigation works. Progress bar updates.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Previous/Next buttons work. Progress pills at top fill as you advance through steps.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.31 — Guide mode-aware tips

HOW IT WORKS:
At the bottom of the guide, a colored tip box shows advice specific to the current AI mode. Crimson border for AI Auto, blue for Hybrid, yellow for Human. The tip text changes based on mode.

IN AI AUTONOMOUS MODE:
Crimson-bordered tip box. Text explains AI Autonomous behavior for this section.

IN HYBRID MODE:
Blue-bordered tip box. Text explains Hybrid review process.

IN HUMAN CONTROLLED MODE:
Yellow-bordered tip box. Text explains manual control workflow.

EXPECTED RESULT:
Colored tip box at bottom matches current mode. Text provides mode-specific guidance.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.32 — Guide close button

HOW IT WORKS:
The guide has an X button in the top-right corner and a "Done" button on the last step. Both close the overlay and return to the page.

IN AI AUTONOMOUS MODE:
Close and Done both dismiss the guide.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
X button and Done button both close the guide overlay. Backdrop click may also close it.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.33 — Guide content matches section

HOW IT WORKS:
Each section guide should show content relevant to that section — Outreach guide shows outreach steps, CRM guide shows CRM steps, etc.

IN AI AUTONOMOUS MODE:
Content is section-specific, not generic.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Each guide shows steps specific to its section. Outreach "" CRM "" Marketing content.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.34 — Guide available for all sections

HOW IT WORKS:
Every major section should have a guide: Outreach, CRM, Marketing, Production, Admin, Finance, and Settings.

IN AI AUTONOMOUS MODE:
All 7 sections have guides.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Clicking [?] for any of the 7 sections opens a guide with relevant content.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.35 — AI Autonomous mode — no banner or crimson banner

HOW IT WORKS:
In AI Autonomous mode, either no mode banner appears at the top of pages, or a subtle crimson/red banner indicates full AI control.

IN AI AUTONOMOUS MODE:
No restrictive banner. AI handles everything automatically.

IN HYBRID MODE:
N/A — this tests AI Auto specifically.

IN HUMAN CONTROLLED MODE:
N/A — this tests AI Auto specifically.

EXPECTED RESULT:
No "Hybrid" or "Human Controlled" banner visible. Page shows normal content without mode restrictions.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.36 — Hybrid mode — yellow/blue banner

HOW IT WORKS:
In Hybrid mode, a yellow or blue banner appears at the top of each content page indicating "Hybrid Mode — AI prepares, you review."

IN AI AUTONOMOUS MODE:
N/A — this tests Hybrid specifically.

IN HYBRID MODE:
Yellow/blue banner visible on Dashboard, Outreach, CRM, and all other pages.

IN HUMAN CONTROLLED MODE:
N/A — this tests Hybrid specifically.

EXPECTED RESULT:
Banner is visible at top of page content indicating Hybrid mode is active.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.37 — Human mode — blue banner

HOW IT WORKS:
In Human Controlled mode, a blue banner appears at the top of each content page indicating "Manual Control — AI standby" or similar.

IN AI AUTONOMOUS MODE:
N/A — this tests Human specifically.

IN HYBRID MODE:
N/A — this tests Human specifically.

IN HUMAN CONTROLLED MODE:
Blue banner visible on all pages. Some AI buttons are hidden.

EXPECTED RESULT:
Blue banner visible at top indicating Human/Manual mode. AI automation buttons hidden.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.38 — Banner visible on every page

HOW IT WORKS:
Navigate to Dashboard, Outreach, CRM, Marketing, Production, Admin, Finance. The mode banner (if in Hybrid or Human mode) should appear on each page.

IN AI AUTONOMOUS MODE:
No banner on any page (or consistent crimson banner on all).

IN HYBRID MODE:
Yellow banner on every page.

IN HUMAN CONTROLLED MODE:
Blue banner on every page.

EXPECTED RESULT:
Mode banner (or lack thereof in AI Auto) is consistent across all pages.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

1.39 — Banner disappears when switching to Auto

HOW IT WORKS:
If you are in Hybrid or Human mode with a banner showing, switch to AI Autonomous. The banner should disappear or change to indicate full AI control.

IN AI AUTONOMOUS MODE:
Banner removed or changed to crimson.

IN HYBRID MODE:
N/A — switching away from Hybrid.

IN HUMAN CONTROLLED MODE:
N/A — switching away from Human.

EXPECTED RESULT:
After switching to AI Auto, the restrictive banner disappears from the page.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

SECTION 2: DASHBOARD (Command Center)

2.1 — Dashboard loads without errors

HOW IT WORKS:
Navigate to the Dashboard. The page should render completely without any JavaScript errors in the console or any blank/white screen.

IN AI AUTONOMOUS MODE:
Dashboard loads with all cards and data. No errors.

IN HYBRID MODE:
Same layout with review-related badges.

IN HUMAN CONTROLLED MODE:
Same layout with manual-mode badges.

EXPECTED RESULT:
Page renders fully. No console errors. All cards visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.2 — Page title "Command Center"

HOW IT WORKS:
The page header should display "Command Center" as the main title, possibly with a subtitle like "Your business at a glance."

IN AI AUTONOMOUS MODE:
Title visible with AI-mode badge.

IN HYBRID MODE:
Title visible with Hybrid badge.

IN HUMAN CONTROLLED MODE:
Title visible with Manual badge.

EXPECTED RESULT:
Header shows "Command Center" with descriptive subtitle text.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.3 — Mode badge in header

HOW IT WORKS:
Next to or below the page title, a badge should show the current AI mode — "AI Autonomous", "Hybrid", or "Manual Control".

IN AI AUTONOMOUS MODE:
Badge shows "AI Autonomous" with Bot icon.

IN HYBRID MODE:
Badge shows "Hybrid" with Eye icon.

IN HUMAN CONTROLLED MODE:
Badge shows "Manual Control" with Hand icon.

EXPECTED RESULT:
Mode badge is visible and matches the currently active AI mode.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.4 — KPI Card: Total Leads

HOW IT WORKS:
A metric card shows the total number of leads in the system. This pulls from the leads table via API. Shows an icon and a count number.

IN AI AUTONOMOUS MODE:
Count shown. "AI Routed" annotation may appear.

IN HYBRID MODE:
Count shown. "Needs Review" annotation may appear.

IN HUMAN CONTROLLED MODE:
Count shown. "Manually Tracked" annotation may appear.

EXPECTED RESULT:
Card shows "Total Leads" label with a numeric count and an icon.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.5 — KPI Card: Qualified

HOW IT WORKS:
Shows the count of leads that have been qualified (scored 50+ or marked as qualified). Subset of total leads.

IN AI AUTONOMOUS MODE:
Qualified count. Auto-scored by AI.

IN HYBRID MODE:
Qualified count. Mix of AI and human scoring.

IN HUMAN CONTROLLED MODE:
Qualified count. Manually scored only.

EXPECTED RESULT:
Card shows "Qualified" label with a numeric count.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.6 — KPI Card: Active Deals

HOW IT WORKS:
Shows the count of deals/opportunities that are currently active (not closed_won or closed_lost). These are in-progress pipeline items.

IN AI AUTONOMOUS MODE:
Active deal count from pipeline.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Card shows "Active Deals" with a count of non-closed opportunities.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.7 — KPI Card: Won Deals

HOW IT WORKS:
Shows the count of deals marked as closed_won. This represents successful conversions.

IN AI AUTONOMOUS MODE:
Won deal count.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Card shows "Won Deals" with a count of closed_won opportunities.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.8 — KPI Card: Revenue

HOW IT WORKS:
Shows total revenue from won deals, formatted as a dollar amount (e.g., "\$25k" or "\$25,000"). Calculated from opportunity values.

IN AI AUTONOMOUS MODE:
Revenue formatted as \$Xk.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Card shows "Revenue" with a formatted dollar amount from won deals.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.9 — KPI Card: Pending Tasks

HOW IT WORKS:
Shows the count of tasks that are not yet completed. Pulls from the admin operations task list.

IN AI AUTONOMOUS MODE:
Pending task count. May be lower due to auto-completion.

IN HYBRID MODE:
Pending task count.

IN HUMAN CONTROLLED MODE:
Pending task count. May be higher.

EXPECTED RESULT:
Card shows "Pending Tasks" with a count of incomplete tasks.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.10 — Quick Actions section visible

HOW IT WORKS:
Below the KPI cards, a "Quick Actions" section shows 4 shortcut buttons in a grid layout for the most common tasks.

IN AI AUTONOMOUS MODE:
4 action buttons visible with hover animations.

IN HYBRID MODE:
Same 4 buttons.

IN HUMAN CONTROLLED MODE:
4 buttons with "Enter Prospects Manually" replacing "Find Prospects".

EXPECTED RESULT:
4 Quick Action buttons visible in a grid layout.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.11 — Quick Actions — AI Auto mode

HOW IT WORKS:
In AI Autonomous mode, the 4 buttons are: "Find Prospects" (! Outreach), "View Pipeline" (! CRM), "Create Content" (! Production), "Open Settings" (! Settings).

IN AI AUTONOMOUS MODE:
All 4 buttons with these exact labels.

IN HYBRID MODE:
Same labels.

IN HUMAN CONTROLLED MODE:
Different — see 2.12.

EXPECTED RESULT:
Buttons show: Find Prospects, View Pipeline, Create Content, Open Settings.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.12 — Quick Actions — Human mode

HOW IT WORKS:
In Human Controlled mode, "Find Prospects" should be replaced with "Enter Prospects Manually" since AI prospecting is disabled.

IN AI AUTONOMOUS MODE:
N/A — tests Human mode only.

IN HYBRID MODE:
"Find Prospects" label remains.

IN HUMAN CONTROLLED MODE:
"Enter Prospects Manually" replaces "Find Prospects". Other 3 buttons unchanged.

EXPECTED RESULT:
In Human mode, first button says "Enter Prospects Manually" instead of "Find Prospects".

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.13 — Quick Action clicks navigate

HOW IT WORKS:
Click each Quick Action button. Each should navigate to the correct page: Outreach, CRM, Production, or Settings.

IN AI AUTONOMOUS MODE:
All 4 navigate to correct pages.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same (even "Enter Prospects Manually" goes to Outreach).

EXPECTED RESULT:
Each button click navigates to the correct section page without errors.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.14 — Quick Actions hover animation

HOW IT WORKS:
Hovering over a Quick Action card should trigger a scale-up animation (framer-motion whileHover). The card slightly enlarges on hover.

IN AI AUTONOMOUS MODE:
Hover animation works on all 4 cards.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Cards visually scale up on hover with smooth animation. No jitter or layout shift.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.15 — Pipeline Summary card

HOW IT WORKS:
A card shows the deal pipeline breakdown with stage names and progress bars. This gives a visual overview of where deals are in the sales process.

IN AI AUTONOMOUS MODE:
Pipeline card with stages and bars. "Auto-Advanced" badges.

IN HYBRID MODE:
Same with "Review Required" badges.

IN HUMAN CONTROLLED MODE:
Same with stage name badges.

EXPECTED RESULT:
Pipeline card visible with stage names and proportional progress bars.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.16 — Pipeline stages listed

HOW IT WORKS:
The pipeline summary should list these stages: New Lead, Meeting Set, Discovery, Proposal, Negotiation, Won.

IN AI AUTONOMOUS MODE:
All stages listed.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 6 pipeline stages are listed with their names.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.17 — Pipeline bar widths

HOW IT WORKS:
Each stage has a progress bar whose width is proportional to the number of deals in that stage. More deals = wider bar.

IN AI AUTONOMOUS MODE:
Bar widths proportional to deal counts.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Bars are different widths based on deal distribution. Not all the same width.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.18 — Pipeline animated bars

HOW IT WORKS:
The progress bars should animate in when the page loads — expanding from 0 to their full width. This uses framer-motion.

IN AI AUTONOMOUS MODE:
Bars animate smoothly on load.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Bars expand from left to right with smooth animation on page load.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.19 — Top 3 deals shown

HOW IT WORKS:
Below the pipeline bars, up to 3 deals from the pipeline are shown as preview cards.

IN AI AUTONOMOUS MODE:
Up to 3 deal previews visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Up to 3 deal cards shown below the pipeline bars.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.20 — Deal cards show name + stage + value

HOW IT WORKS:
Each deal preview card should show the deal/company name, current pipeline stage label, and dollar value.

IN AI AUTONOMOUS MODE:
Name, stage, value visible on each card.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Each deal card displays: title, stage label, and dollar amount.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.21 — Deal cards clickable

HOW IT WORKS:

Clicking on a deal preview card should navigate to the CRM page where the full pipeline is visible.

IN AI AUTONOMOUS MODE:

Click navigates to /crm.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Clicking a deal card navigates to the CRM page.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.22 — Deal mode badges — AI Auto

HOW IT WORKS:

In AI Autonomous mode, deal cards should show an "Auto-Advanced" badge indicating AI is automatically managing deal progression.

IN AI AUTONOMOUS MODE:

"Auto-Advanced" badge visible on deal cards.

IN HYBRID MODE:

N/A.

IN HUMAN CONTROLLED MODE:

N/A.

EXPECTED RESULT:

In AI Auto mode, deal cards show "Auto-Advanced" badge.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.23 — Deal mode badges — Hybrid

HOW IT WORKS:

In Hybrid mode, deal cards should show a "Review Required" badge indicating deals need human approval before advancing.

IN AI AUTONOMOUS MODE:

N/A.

IN HYBRID MODE:

"Review Required" badge visible on deal cards.

IN HUMAN CONTROLLED MODE:

N/A.

EXPECTED RESULT:

In Hybrid mode, deal cards show "Review Required" badge.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.24 — Deal mode badges — Human

HOW IT WORKS:

In Human Controlled mode, deal cards should show the stage name as a simple badge (no AI-related text).

IN AI AUTONOMOUS MODE:

N/A.

IN HYBRID MODE:

N/A.

IN HUMAN CONTROLLED MODE:

Stage name shown as badge (e.g., "Discovery", "Proposal").

EXPECTED RESULT:

In Human mode, deal cards show stage name as the badge instead of AI labels.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.25 — "View All" link to CRM

HOW IT WORKS:

The Pipeline Summary card should have a "View All" button or link that navigates to the full CRM pipeline page.

IN AI AUTONOMOUS MODE:

"View All" links to /crm.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

"View All" button visible and navigates to the CRM page when clicked.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.26 — Empty pipeline state

HOW IT WORKS:

If there are no deals in the pipeline, the card should show a message like "No deals in pipeline yet" with a "Start Prospecting" button linking to Outreach.

IN AI AUTONOMOUS MODE:

Empty state message with CTA button.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same (CTA may say "Enter Prospects Manually").

EXPECTED RESULT:

Empty pipeline shows a helpful message and an action button to start creating deals.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.27 — Recent Leads card

HOW IT WORKS:

A card shows up to 5 of the most recently added leads, giving a quick view of incoming prospects.

IN AI AUTONOMOUS MODE:

Up to 5 recent leads shown.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Card visible with up to 5 recent lead items listed.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.28 — Lead items show name + company

HOW IT WORKS:

Each lead item in the Recent Leads card should display the person's name (first + last) and their company name.

IN AI AUTONOMOUS MODE:

Name and company visible per lead.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Each lead shows first/last name and company name.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.29 — Lead mode badges — AI Auto

HOW IT WORKS:

In AI Autonomous mode, each lead item should show an "AI Routed" badge indicating the AI has automatically scored and routed this lead.

IN AI AUTONOMOUS MODE:

"AI Routed" badge on each lead.

IN HYBRID MODE:

N/A.

IN HUMAN CONTROLLED MODE:

N/A.

EXPECTED RESULT:

In AI Auto, leads show "AI Routed" badge.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.30 — Lead mode badges — Hybrid

HOW IT WORKS:

In Hybrid mode, leads show "Needs Review" or "Reviewed" badges based on whether a human has confirmed the AI's scoring.

IN AI AUTONOMOUS MODE:

N/A.

IN HYBRID MODE:

"Needs Review" or "Reviewed" badge per lead.

IN HUMAN CONTROLLED MODE:

N/A.

EXPECTED RESULT:

In Hybrid, leads show review status badges.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.31 — Lead mode badges — Human

HOW IT WORKS:
In Human Controlled mode, leads show their status name as a simple badge (e.g., "New", "Contacted").

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
Status name shown as badge.

EXPECTED RESULT:
In Human mode, leads show status name badges.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.32 — Lead AI annotation — AI Auto

HOW IT WORKS:
Below the lead list in AI Auto mode, a text annotation reads: "All leads auto-scored and routed by AI"

IN AI AUTONOMOUS MODE:
Annotation text visible.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Text "All leads auto-scored and routed by AI" visible below lead list.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.33 — Lead AI annotation — Hybrid

HOW IT WORKS:
In Hybrid mode, the annotation reads: "AI scored — your approval needed"

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
Annotation text visible.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Text "AI scored — your approval needed" visible below lead list.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.34 — Lead AI annotation — Human

HOW IT WORKS:
In Human mode, the annotation reads: "Manual tracking — no AI processing"

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
Annotation text visible.

EXPECTED RESULT:
Text "Manual tracking — no AI processing" visible below lead list.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.35 — Lead items clickable

HOW IT WORKS:
Clicking on a lead item should navigate to the Outreach page where you can see more details.

IN AI AUTONOMOUS MODE:
Click navigates to /outreach.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Clicking a lead navigates to the Outreach page.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.36 — "View All" link to Outreach

HOW IT WORKS:
The Recent Leads card should have a "View All" button linking to the full Outreach page.

IN AI AUTONOMOUS MODE:
"View All" links to /outreach.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"View All" button navigates to Outreach when clicked.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.37 — Empty leads state

HOW IT WORKS:
If there are no leads, the card shows "No leads yet — start with Outreach" with a button to navigate to Outreach.

IN AI AUTONOMOUS MODE:
Empty state with action button.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Empty state message visible with an action button to start prospecting.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.38 — System Status card

HOW IT WORKS:
A card shows the operational status of 6 core system modules: AI Engine, Wallet, Outreach, CRM, Marketing, Production.

IN AI AUTONOMOUS MODE:
6 modules listed with status indicators.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
System Status card visible with 6 module entries.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.39 — System modules listed

HOW IT WORKS:
The 6 modules are: AI Engine, Wallet, Outreach, CRM, Marketing, Production. Each has a name and status indicator.

IN AI AUTONOMOUS MODE:
All 6 module names visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 6 modules listed: AI Engine, Wallet, Outreach, CRM, Marketing, Production.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.40 — Module status dots

HOW IT WORKS:
Each module has a colored dot: green = active/healthy, pulsing green = autonomous mode active, yellow = standby, red = error.

IN AI AUTONOMOUS MODE:
Green pulsing dots for active AI modules.

IN HYBRID MODE:
Green dots (some pulsing for AI modules).

IN HUMAN CONTROLLED MODE:
Yellow dots for AI modules (standby). Green for others.

EXPECTED RESULT:
Colored status dots visible next to each module name. Colors change based on AI mode.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.41 — Module status detail text — AI Auto

HOW IT WORKS:
In AI Auto mode, module descriptions reflect full automation: e.g., "Full auto — all agents active", "Active — processing", etc.

IN AI AUTONOMOUS MODE:
AI-specific status descriptions visible.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Descriptions like "Full auto — all agents active" visible for each module.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.42 — Module status detail text — Hybrid

HOW IT WORKS:
In Hybrid mode, descriptions reflect mixed control: e.g., "AI + human review", "Active with approval gates", etc.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
Hybrid-specific descriptions visible.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Descriptions like "AI + human review" visible for each module.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.43 — Module status detail text — Human

HOW IT WORKS:
In Human mode, descriptions reflect manual control: e.g., "Manual only — AI standby", "User-driven", etc.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
Manual-specific descriptions visible.

EXPECTED RESULT:
Descriptions like "Manual only — AI standby" visible for each module.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

2.44 — Dashboard responsive layout

HOW IT WORKS:
Resize the browser or test on mobile. The KPI cards, Quick Actions, and other cards should reflow into fewer columns on smaller screens.

IN AI AUTONOMOUS MODE:
Cards reflow from 6-col to 2-col or 1-col on mobile.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Cards reflow properly on smaller screens. No horizontal scrollbar. No overflow.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

SECTION 3: OUTREACH (6 Tabs / 6 Agents)

3.1 — Outreach page loads

HOW IT WORKS:
Navigate to Outreach from the sidebar. The page should load with a tab bar showing all 6 tabs.

IN AI AUTONOMOUS MODE:
Page loads with all tabs visible.

IN HYBRID MODE:
Same with yellow mode banner.

IN HUMAN CONTROLLED MODE:
Same with blue mode banner. Some AI buttons hidden.

EXPECTED RESULT:
Page loads without errors. Tab bar with 6 tabs visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.2 — 6 tabs visible

HOW IT WORKS:
The tab bar should show: Prospect Finder, Social Command, Strategy, Compose, Follow-ups, Analytics.

IN AI AUTONOMOUS MODE:
All 6 tab labels visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same tabs visible (content inside tabs may differ).

EXPECTED RESULT:
All 6 tabs listed in the tab bar with readable labels.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.3 — Default tab selected

HOW IT WORKS:
On first load, the Prospect Finder tab should be selected and its content displayed.

IN AI AUTONOMOUS MODE:
Prospect Finder tab active with content.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same tab active but AI buttons may be hidden.

EXPECTED RESULT:
Prospect Finder tab is highlighted and its content is shown.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.4 — Clicking each tab

HOW IT WORKS:
Click each of the 6 tabs one by one. Each should switch content without errors or blank screens.

IN AI AUTONOMOUS MODE:
All 6 tabs switch content correctly.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Each tab click shows the correct content. No console errors.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.5 — Active tab styling

HOW IT WORKS:
The currently selected tab should have distinct visual styling — a border, highlight, or different color.

IN AI AUTONOMOUS MODE:
Active tab has crimson border or highlight.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Selected tab clearly distinguishable from unselected tabs.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.6 — Tab animation

HOW IT WORKS:
When switching tabs, the content should animate in — either a fade, slide, or other transition using framer-motion.

IN AI AUTONOMOUS MODE:
Smooth animation on tab switch.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Content animates in smoothly. No jarring jump or flicker.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.7 — "Find Prospects" button visible (AI Auto/Hybrid)

HOW IT WORKS:
In Prospect Finder tab, a prominent "Find Prospects" button should be visible. This triggers AI prospecting. Only shown when AI features are enabled.

IN AI AUTONOMOUS MODE:
Button visible and clickable.

IN HYBRID MODE:
Button visible and clickable.

IN HUMAN CONTROLLED MODE:
Button HIDDEN — replaced with manual form.

EXPECTED RESULT:
In AI Auto and Hybrid modes, the "Find Prospects" button is visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.8 — "Find Prospects" button hidden (Human)

HOW IT WORKS:
In Human Controlled mode, the "Find Prospects" AI button should be hidden. Instead, a "Create Lead" manual entry form should be available.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
"Find Prospects" hidden. "Create Lead" form visible instead.

EXPECTED RESULT:
In Human mode, no "Find Prospects" button. Manual entry form available.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.9 — Click "Find Prospects"

HOW IT WORKS:
Click the "Find Prospects" button. It should show a loading state (spinner), then display results. In dummy mode, the API returns 403 and the onError handler shows a toast with realistic hardcoded data.

IN AI AUTONOMOUS MODE:
Loading !' toast with prospect results or fallback toast.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button hidden — cannot test.

EXPECTED RESULT:
Loading spinner appears, then toast notification with prospect results (or realistic fallback).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.10 — Prospect cards display

HOW IT WORKS:
After finding prospects, cards appear showing each company. Each card includes: company name, fit score (0-100), accessibility score (0-100).

IN AI AUTONOMOUS MODE:
Prospect cards with scores visible.

IN HYBRID MODE:
Same cards with "AI Generated" badge.

IN HUMAN CONTROLLED MODE:
N/A — manual entry mode.

EXPECTED RESULT:
Prospect cards display with company name and two scores (Fit + Accessibility).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.11 — Prospect cards show contact info

HOW IT WORKS:
Each prospect card should display contact details — decision maker name, email, phone, or LinkedIn profile.

IN AI AUTONOMOUS MODE:
Contact details visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Company contact details (name, email, phone) visible on each prospect card.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.12 — "Plan Approach" button per prospect

HOW IT WORKS:
Each prospect card has a "Plan Approach" button that generates a multi-channel outreach strategy for that specific company.

IN AI AUTONOMOUS MODE:
Button visible. Click !' loading !' toast with strategy.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button may be hidden or labeled differently.

EXPECTED RESULT:
Button click triggers strategy generation and shows a toast notification.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.13 — "Save as Lead" button per prospect

HOW IT WORKS:
Each prospect card has a "Save as Lead" button that saves the prospect to the CRM/lead database.

IN AI AUTONOMOUS MODE:
Click !' toast "Lead saved to CRM".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same button behavior.

EXPECTED RESULT:
Button click shows toast confirming lead was saved.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.14 — "Save All to CRM" bulk button

HOW IT WORKS:
A bulk action button saves all displayed prospects as leads. After saving, individual "Save" buttons should change to "Saved" state.

IN AI AUTONOMOUS MODE:
Bulk save !' all buttons sync to "Saved" state.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Bulk save works. Individual buttons update to show "Saved" state.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.15 — Loading spinners during AI calls

HOW IT WORKS:
When an AI operation is running (finding prospects, planning approach, etc.), a spinner or loading indicator should be visible.

IN AI AUTONOMOUS MODE:
Spinner visible during processing.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
N/A — no AI calls.

EXPECTED RESULT:
Visible loading indicator during AI operations. Not just a frozen screen.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.16 — Error handling toast

HOW IT WORKS:
If an AI call fails (403 in dummy mode), the onError handler should display a toast notification with a realistic message — not a crash or error screen.

IN AI AUTONOMOUS MODE:
Fallback toast with realistic data shown.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Error produces a toast notification. No crash, no blank screen, no unhandled error.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.17 — "Create Lead" manual form

HOW IT WORKS:
A manual entry form with fields for name, company, email, phone, etc. Available in Human mode and possibly as an alternative in other modes.

IN AI AUTONOMOUS MODE:
Form may be available as secondary option.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Form is the PRIMARY way to add leads.

EXPECTED RESULT:
Manual form with input fields. Submitting creates a lead and shows toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.18 — Unified inbox view loads

HOW IT WORKS:
Social Command tab shows a unified inbox with messages from all connected channels (LinkedIn, Email, Facebook, X).

IN AI AUTONOMOUS MODE:
All messages visible with auto-classification.

IN HYBRID MODE:
Messages with review badges.

IN HUMAN CONTROLLED MODE:
Messages shown without AI classification.

EXPECTED RESULT:
Unified inbox loads with messages from multiple channels.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.19 — Message classification labels

HOW IT WORKS:
Each message in the inbox has a classification label: Hot Lead (red/fire), Warm (yellow), Cold (blue/snowflake), Spam (gray/blocked).

IN AI AUTONOMOUS MODE:
Auto-classified by AI. Labels visible.

IN HYBRID MODE:
AI-classified with option to override.

IN HUMAN CONTROLLED MODE:
No auto-classification. Manual labeling.

EXPECTED RESULT:
Messages have colored classification labels (Hot/Warm/Cold/Spam).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.20 — AI-prepared response drafts

HOW IT WORKS:
For each incoming message, the AI prepares a suggested response draft that appears below or beside the original message.

IN AI AUTONOMOUS MODE:
Drafts visible per message.

IN HYBRID MODE:
Drafts visible but marked "Review before sending".

IN HUMAN CONTROLLED MODE:
No AI drafts. Manual response only.

EXPECTED RESULT:
Response draft text visible for each message (in AI/Hybrid modes).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.21 — "Send" button per message

HOW IT WORKS:
Each message/response has a "Send" button that marks the response as sent and shows a toast confirmation.

IN AI AUTONOMOUS MODE:
Send !' toast "Response sent".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Send button for manual responses.

EXPECTED RESULT:
Send button click shows toast confirming the response was sent.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.22 — "Move to CRM" button

HOW IT WORKS:
For messages classified as positive responses or hot leads, a "Move to CRM" button creates a lead entry from the conversation.

IN AI AUTONOMOUS MODE:
Button visible on positive messages !' toast "Lead created".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button available for manual CRM creation.

EXPECTED RESULT:
"Move to CRM" button creates a lead and shows confirmation toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.23 — Channel performance stats

HOW IT WORKS:
Stats showing which channel (LinkedIn, Email, etc.) brings the most leads, has the best response rate, etc.

IN AI AUTONOMOUS MODE:
Channel analytics displayed.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same (historical data).

EXPECTED RESULT:
Performance comparison across channels visible with metrics.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.24 — Channel icons (LinkedIn, Email, Facebook)

HOW IT WORKS:
Each message shows the correct platform icon — LinkedIn icon for LinkedIn messages, envelope for email, etc.

IN AI AUTONOMOUS MODE:
Correct icons per channel.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Correct platform icons displayed next to each message.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.25 — Strategy cards display

HOW IT WORKS:
Strategy tab shows multi-channel sequence plans — e.g., Day 1: LinkedIn, Day 3: Email, Day 7: Call.

IN AI AUTONOMOUS MODE:
Strategy cards with full sequence plans.

IN HYBRID MODE:
Same with review badges.

IN HUMAN CONTROLLED MODE:
AI strategy may be hidden. Manual planning tools.

EXPECTED RESULT:
Multi-channel sequence cards visible with day-by-day plans.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.26 — Decision chain mapping

HOW IT WORKS:
Shows the contact sequence within a company: CEO !' CTO !' Marketing Director, helping prioritize who to contact first.

IN AI AUTONOMOUS MODE:
Decision chain visible with recommended order.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Chain visible but without AI recommendations.

EXPECTED RESULT:
Contact sequence/decision chain visible showing multiple stakeholders.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.27 — "Draft Messages" button on strategy

HOW IT WORKS:
Each strategy card has a button to draft personalized messages based on the strategy plan.

IN AI AUTONOMOUS MODE:
Button !' triggers message composition !' toast.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button may be hidden or manual drafting.

EXPECTED RESULT:
"Draft Messages" click triggers composition and shows toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.28 — Strategy gated in Human mode

HOW IT WORKS:
In Human Controlled mode, AI strategy generation buttons should be hidden or replaced with manual planning tools.

IN AI AUTONOMOUS MODE:
All AI buttons visible.

IN HYBRID MODE:
All AI buttons visible.

IN HUMAN CONTROLLED MODE:
AI strategy buttons hidden. Manual tools available.

EXPECTED RESULT:
In Human mode, AI-specific strategy buttons are not visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.29 — Personalized message drafts display

HOW IT WORKS:
Compose tab shows AI-written messages tailored to each prospect. Each message is channel-specific (LinkedIn DM, Email, Call Script).

IN AI AUTONOMOUS MODE:
Multiple personalized drafts visible.

IN HYBRID MODE:
Drafts with "Review" badges.

IN HUMAN CONTROLLED MODE:
No AI drafts. Manual composition tools.

EXPECTED RESULT:
Message drafts visible, each tailored to a specific prospect and channel.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.30 — Messages reference prospect details

HOW IT WORKS:
Generated messages should reference the prospect's company name, specific pain points, and industry context — not generic templates.

IN AI AUTONOMOUS MODE:
Company-specific references in messages.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
N/A — manual composition.

EXPECTED RESULT:
Messages mention company name, pain points, and cybersecurity-specific details.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.31 — "Review & Send" buttons per message

HOW IT WORKS:
Each message has a send action button. Clicking it marks the message as sent and shows a toast.

IN AI AUTONOMOUS MODE:
"Send" button per message !' toast.

IN HYBRID MODE:
"Review & Send" per message !' toast.

IN HUMAN CONTROLLED MODE:
Manual send button.

EXPECTED RESULT:
Send button works and shows confirmation toast for each message.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.32 — Tone adaptation by role

HOW IT WORKS:

Messages should have different tones based on the recipient's role: C-Suite = strategic, IT Directors = technical, Marketing = results-focused.

IN AI AUTONOMOUS MODE:

Tone varies by recipient role.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

N/A — manual writing.

EXPECTED RESULT:

Different messages show different tones appropriate to the recipient role.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.33 — No forbidden words in output

HOW IT WORKS:

No message should contain: "leverage", "synergy", "cutting-edge", "game-changing", or "innovative". These are banned from all content.

IN AI AUTONOMOUS MODE:

All generated content free of forbidden words.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

N/A.

EXPECTED RESULT:

None of the 5 forbidden words appear in any generated message text.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.34 — Channel-specific formatting

HOW IT WORKS:

LinkedIn DMs should be shorter and casual, emails should have subject lines and signatures, call scripts should have talking points format.

IN AI AUTONOMOUS MODE:

Different format per channel.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

N/A.

EXPECTED RESULT:

Each channel message has appropriate formatting for that platform.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.35 — Follow-up reminders list

HOW IT WORKS:

Follow-ups tab shows a list of upcoming follow-up actions with timing — when each follow-up should be sent and through which channel.

IN AI AUTONOMOUS MODE:

Follow-ups auto-scheduled with timing.

IN HYBRID MODE:

Follow-ups suggested. You confirm timing.

IN HUMAN CONTROLLED MODE:

Manual follow-up tracking.

EXPECTED RESULT:

List of follow-up items visible with dates/timing for each.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.36 — "Send Follow-up" button

HOW IT WORKS:

Each follow-up has a send button that drafts and sends a follow-up message referencing previous touchpoints with that prospect.

IN AI AUTONOMOUS MODE:

Button !' auto-draft !' toast "Follow-up sent".

IN HYBRID MODE:

Button !' draft for review !' toast.

IN HUMAN CONTROLLED MODE:

Manual follow-up composition.

EXPECTED RESULT:

Send button triggers follow-up and shows confirmation toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.37 — Escalation logic visible

HOW IT WORKS:

The system shows escalation rules: after 3 LinkedIn attempts with no response, suggest switching to email. After email failures, suggest phone call.

IN AI AUTONOMOUS MODE:

Escalation auto-suggested. May auto-execute.

IN HYBRID MODE:

Escalation suggested for your approval.

IN HUMAN CONTROLLED MODE:

Escalation rules visible for reference.

EXPECTED RESULT:

Escalation chain visible (LinkedIn !' Email !' Phone) with clear indicators.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.38 — Signal detection display

HOW IT WORKS:

The system detects warm signals — profile views, email opens, link clicks — and highlights them as indicators of prospect interest.

IN AI AUTONOMOUS MODE:

Signals auto-detected and displayed.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Signals may require manual noting.

EXPECTED RESULT:

Warm signals (profile views, opens) visible with icons/labels per prospect.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.39 — "Move to CRM" button

HOW IT WORKS:

When a prospect responds positively, a "Move to CRM" button appears to convert them from a prospect to a qualified lead in the CRM.

IN AI AUTONOMOUS MODE:

Button appears on positive responses !' toast "Lead moved to CRM".

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Manual CRM entry option.

EXPECTED RESULT:

"Move to CRM" creates a CRM lead and shows confirmation toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.40 — Follow-up status tracking

HOW IT WORKS:

Each follow-up shows its status: Sent, Pending, Scheduled, or Overdue. Colors/badges indicate which follow-ups need attention.

IN AI AUTONOMOUS MODE:

Auto-tracked statuses.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Manual status updates.

EXPECTED RESULT:

Status labels visible per follow-up with appropriate color coding.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.41 — Outreach metrics dashboard

HOW IT WORKS:

Analytics tab shows key outreach metrics: reply rates, open rates, acceptance rates broken down by channel.

IN AI AUTONOMOUS MODE:

Full analytics dashboard with charts.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same (view-only in all modes).

EXPECTED RESULT:

Metrics displayed with percentage values per channel.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.42 — Winner/loser identification

HOW IT WORKS:
Analytics highlights which approaches work best vs worst — e.g., "Case study email: 34% reply rate vs 8% for generic intro."

IN AI AUTONOMOUS MODE:
AI insights highlighting winners/losers.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Historical data without AI insights.

EXPECTED RESULT:
Clear comparisons showing best and worst performing strategies.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.43 — Team tracking stats

HOW IT WORKS:
Shows who sent what, conversion rates per team member, and activity breakdown.

IN AI AUTONOMOUS MODE:
Includes AI agent activity tracking.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual team stats only.

EXPECTED RESULT:
Per-person/agent activity stats visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.44 — Weekly report summary

HOW IT WORKS:
A summary of the week's outreach with clear action items like "Increase LinkedIn, reduce cold email."

IN AI AUTONOMOUS MODE:
AI-generated weekly insights.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Raw data summary.

EXPECTED RESULT:
Weekly summary with actionable recommendations visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.45 — "Apply Recommendation" buttons

HOW IT WORKS:
Each recommendation in the analytics has an "Apply" button that implements the suggestion (e.g., adjusts outreach strategy).

IN AI AUTONOMOUS MODE:
Apply !' toast "Recommendation applied".

IN HYBRID MODE:
Apply with review !' toast.

IN HUMAN CONTROLLED MODE:
Buttons may be hidden.

EXPECTED RESULT:
Apply button click shows confirmation toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

3.46 — Chart/graph rendering

HOW IT WORKS:
Visual charts (bar charts, line graphs, pie charts) render correctly without overflow, cutoff, or errors.

IN AI AUTONOMOUS MODE:
Charts render properly.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Charts visible, properly sized, no overflow or rendering errors.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.1 — CRM page loads

HOW IT WORKS:
Navigate to CRM from the sidebar. Page loads with tab bar showing 5 tabs.

IN AI AUTONOMOUS MODE:
Page loads with all features active.

IN HYBRID MODE:
Same with mode banner.

IN HUMAN CONTROLLED MODE:
Same with mode banner. AI buttons hidden.

EXPECTED RESULT:
Page loads without errors. Tab bar with 5 tabs visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.2 — 5 tabs visible

HOW IT WORKS:
Tab bar shows: Pipeline, Lead Qualification, Call Intelligence, Proposals, CRM Sync.

IN AI AUTONOMOUS MODE:
All 5 tabs visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 5 tab labels visible in the tab bar.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.3 — Default tab selected

HOW IT WORKS:
Pipeline tab is selected by default on first load.

IN AI AUTONOMOUS MODE:
Pipeline tab active.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Pipeline tab highlighted and its content shown.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.4 — Clicking each tab

HOW IT WORKS:
Click each of the 5 tabs. Content switches without errors.

IN AI AUTONOMOUS MODE:
All tabs work.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Each tab switch shows correct content without console errors.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.5 — Pipeline view loads

HOW IT WORKS:
Pipeline tab shows a visual pipeline with columns representing deal stages.

IN AI AUTONOMOUS MODE:
Full pipeline with AI badges.

IN HYBRID MODE:
Pipeline with review badges.

IN HUMAN CONTROLLED MODE:
Pipeline with manual controls only.

EXPECTED RESULT:
Visual pipeline with stage columns and deal cards loads.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.6 — Pipeline stages shown

HOW IT WORKS:
Columns for: New Lead !' Meeting Set !' Discovery !' Proposal !' Negotiation !' Won/Lost.

IN AI AUTONOMOUS MODE:
All stages visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All pipeline stages visible as columns or sections.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.7 — Deal cards render

HOW IT WORKS:
Deal cards in each column showing deal/company name, value, and stage.

IN AI AUTONOMOUS MODE:
Cards with "Auto-Advanced" badges.

IN HYBRID MODE:
Cards with "Review" badges.

IN HUMAN CONTROLLED MODE:
Cards with stage labels.

EXPECTED RESULT:
Deal cards visible in pipeline with name, company, and dollar value.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.8 — Deal health indicators

HOW IT WORKS:
Each deal has a health indicator: Green (healthy/on track), Yellow (stale/inactive), Red (at risk/losing).

IN AI AUTONOMOUS MODE:
AI-calculated health indicators.

IN HYBRID MODE:
Same indicators with AI + human input.

IN HUMAN CONTROLLED MODE:
Manual health assessment.

EXPECTED RESULT:
Colored health dots or icons visible per deal card.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.9 — AI Pipeline Review (Sparkle button)

HOW IT WORKS:
A sparkle/AI button triggers comprehensive pipeline analysis — risk assessment, recommendations, next steps.

IN AI AUTONOMOUS MODE:
Button visible. Click !' toast with AI insights.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button HIDDEN.

EXPECTED RESULT:
In AI/Hybrid: click shows analysis toast. In Human: button not visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.10 — AI Pipeline Review gated in Human mode

HOW IT WORKS:
The sparkle/AI review button should not be visible in Human Controlled mode.

IN AI AUTONOMOUS MODE:
Button visible.

IN HYBRID MODE:
Button visible.

IN HUMAN CONTROLLED MODE:
Button hidden.

EXPECTED RESULT:
Button is hidden when in Human Controlled mode.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.11 — Deal detail panel

HOW IT WORKS:
Clicking a deal card opens a detailed view (drawer or panel) with full deal information.

IN AI AUTONOMOUS MODE:
Detail panel opens with AI notes.

IN HYBRID MODE:
Same with review items.

IN HUMAN CONTROLLED MODE:
Same without AI features.

EXPECTED RESULT:
Clicking a deal opens a detail view with comprehensive information.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.12 — Deal detail shows notes

HOW IT WORKS:
The detail panel shows contact notes, activity history, and communication log.

IN AI AUTONOMOUS MODE:
AI-generated notes visible.

IN HYBRID MODE:
Mix of AI and human notes.

IN HUMAN CONTROLLED MODE:
Manual notes only.

EXPECTED RESULT:
Notes and activity history visible in the deal detail panel.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.13 — Deal stage progression

HOW IT WORKS:
From the detail panel, you can change the deal stage (advance or regress it through the pipeline).

IN AI AUTONOMOUS MODE:
Stage may auto-advance. Manual override available.

IN HYBRID MODE:
AI suggests advancement. You confirm.

IN HUMAN CONTROLLED MODE:
Manual stage changes only.

EXPECTED RESULT:
Can change deal stage from the detail view. Toast confirms the change.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.14 — Risk detection alerts

HOW IT WORKS:
Warning badges appear on deals with risk factors: "Champion silent" (contact not responding), "Competitor mentioned" (competitor came up in conversation).

IN AI AUTONOMOUS MODE:
Auto-detected risk badges.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual risk flagging.

EXPECTED RESULT:
Warning badges visible on at-risk deals with specific risk descriptions.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.15 — Next step recommendations

HOW IT WORKS:
Each deal shows a specific recommended next action: "Send ROI calculator to Sarah by Thursday" — not generic advice.

IN AI AUTONOMOUS MODE:
AI-generated specific next steps.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
No AI recommendations.

EXPECTED RESULT:
Specific, actionable next step visible per deal (names, dates, actions).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.16 — "Create Proposal" button on deal

HOW IT WORKS:
Button on deal detail triggers proposal generation with scope, timeline, and pricing.

IN AI AUTONOMOUS MODE:
Click !' toast "Proposal generated".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button may be hidden or manual creation.

EXPECTED RESULT:
Button click generates proposal and shows confirmation toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.17 — "Mark Won" button

HOW IT WORKS:
Button changes deal stage to closed_won. Shows success celebration toast.

IN AI AUTONOMOUS MODE:
Click !' stage changes !' success toast.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Deal moves to "Won" stage with success toast notification.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.18 — "Mark Lost" button

HOW IT WORKS:
Button changes deal stage to closed_lost. May ask for loss reason.

IN AI AUTONOMOUS MODE:
Click !' stage changes !' toast with reason prompt.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Deal moves to "Lost" stage. Loss recorded with toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.19 — Pipeline total value display

HOW IT WORKS:
Shows the total dollar value of all active deals in the pipeline.

IN AI AUTONOMOUS MODE:
Total displayed prominently.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Total pipeline value in dollars shown (e.g., "\$150,000").

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.20 — Lead scoring display

HOW IT WORKS:
Lead Qualification tab shows 5-dimension scoring: Company Fit (30%), Marketing Need (25%), Budget (20%), Timing (15%), Authority (10%).

IN AI AUTONOMOUS MODE:
Auto-scored by AI with all 5 dimensions.

IN HYBRID MODE:
AI-scored. Review before routing.

IN HUMAN CONTROLLED MODE:
Manual scoring or request AI assistance.

EXPECTED RESULT:
5 scoring dimensions visible with weights and individual scores.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.21 — Score weights shown

HOW IT WORKS:
Each dimension shows its weight: Fit 30%, Need 25%, Budget 20%, Timing 15%, Authority 10%.

IN AI AUTONOMOUS MODE:
Weights displayed.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Percentage weights visible next to each scoring dimension.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.22 — Category labels

HOW IT WORKS:
Leads are categorized: Hot (80+), Warm (50-79), Cold (20-49), Disqualified (<20) with icons.

IN AI AUTONOMOUS MODE:
Categories auto-assigned.

IN HYBRID MODE:
Categories assigned, review available.

IN HUMAN CONTROLLED MODE:
Manual categorization.

EXPECTED RESULT:
Category labels with icons (fire, yellow, snowflake, block) visible per lead.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.23 — Score reasoning visible

HOW IT WORKS:
Each score has an explanation of why that score was assigned — specific reasons, not just numbers.

IN AI AUTONOMOUS MODE:
AI-generated reasoning text.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual notes.

EXPECTED RESULT:
Text explanation visible for each score (e.g., "Strong IT budget, CTO engaged").

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.24 — "Set Meeting" button on hot leads

HOW IT WORKS:
Hot leads (80+) have a "Set Meeting" button that triggers meeting prep.

IN AI AUTONOMOUS MODE:
Button !' toast "Meeting prep started".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual meeting scheduling.

EXPECTED RESULT:
Set Meeting button on hot leads triggers meeting prep with toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.25 — Warm leads !' nurture flow

HOW IT WORKS:
Warm leads show "Continue Follow-up" option routing to the follow-up system (Agent 5).

IN AI AUTONOMOUS MODE:
Auto-routed to nurture.

IN HYBRID MODE:
Suggested nurture. You confirm.

IN HUMAN CONTROLLED MODE:
Manual follow-up decision.

EXPECTED RESULT:
"Continue Follow-up" or nurture option visible on warm leads.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.26 — Lead list sortable/filterable

HOW IT WORKS:

Lead list can be sorted by score (high to low) and filtered by category (Hot/Warm/Cold).

IN AI AUTONOMOUS MODE:

Sort and filter work.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Sort and filter controls work. List updates accordingly.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

4.27 — Pre-call briefing generates

HOW IT WORKS:

"Prep for Meeting" button creates a comprehensive briefing document with company research, pain points, and talking points.

IN AI AUTONOMOUS MODE:

Click ! toast "Briefing generated".

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Manual briefing or request AI assist.

EXPECTED RESULT:

Briefing generation triggered with confirmation toast.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

4.28 — Briefing content

HOW IT WORKS:

Generated briefing includes: who they are, pain points, talking points, company background research.

IN AI AUTONOMOUS MODE:

Full AI-generated briefing.

IN HYBRID MODE:

Same with review option.

IN HUMAN CONTROLLED MODE:

Template-based briefing.

EXPECTED RESULT:

Briefing shows all 4 sections with specific, relevant content.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

4.29 — Coaching cards displayed

HOW IT WORKS:

"If they say X, respond with Y" format cards for common objections and questions.

IN AI AUTONOMOUS MODE:

AI-generated coaching cards.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Standard coaching templates.

EXPECTED RESULT:

Coaching cards visible with objection + response pairs.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

4.30 — Objection handling scripts

HOW IT WORKS:

Specific scripts for common objections: budget concerns, already have an agency, "send me info" deflections.

IN AI AUTONOMOUS MODE:

Tailored scripts per objection.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Standard scripts.

EXPECTED RESULT:

At least 3 objection handling scripts visible with specific responses.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

4.31 — "Upload Transcript" button

HOW IT WORKS:
Button to upload a Zoom/call transcript for AI analysis.

IN AI AUTONOMOUS MODE:
Upload !' AI analysis !' toast.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Upload available but no AI analysis.

EXPECTED RESULT:
Upload button visible and functional. File accepted.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.32 — Post-call analysis

HOW IT WORKS:
After transcript upload, AI analyzes: sentiment, key decisions, action items, updated deal score.

IN AI AUTONOMOUS MODE:
Full analysis displayed.

IN HYBRID MODE:
Analysis with review option.

IN HUMAN CONTROLLED MODE:
No AI analysis.

EXPECTED RESULT:
Analysis results shown with sentiment, decisions, and action items.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.33 — Follow-up email draft

HOW IT WORKS:
AI drafts a follow-up email based on transcript analysis, referencing specific discussion points.

IN AI AUTONOMOUS MODE:
Auto-drafted follow-up email.

IN HYBRID MODE:
Draft for your review.

IN HUMAN CONTROLLED MODE:
Manual email composition.

EXPECTED RESULT:
Follow-up email draft visible with specific references to the call.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.34 — "Send Follow-up" button

HOW IT WORKS:
Button to send the drafted follow-up email.

IN AI AUTONOMOUS MODE:
Send !' toast "Follow-up sent".

IN HYBRID MODE:
Review then send !' toast.

IN HUMAN CONTROLLED MODE:
Manual send.

EXPECTED RESULT:
Send button click shows confirmation toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.35 — Call Intelligence gated in Human mode

HOW IT WORKS:
AI-powered features (auto-briefing, coaching, transcript analysis) hidden in Human mode.

IN AI AUTONOMOUS MODE:
All AI features visible.

IN HYBRID MODE:
All AI features visible.

IN HUMAN CONTROLLED MODE:
AI-specific buttons hidden. Manual tools remain.

EXPECTED RESULT:
In Human mode, AI analysis buttons are not visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.36 — "Create Proposal" generates proposal

HOW IT WORKS:
Proposals tab: click "Create Proposal" to generate a customized proposal with scope, timeline, and pricing tiers.

IN AI AUTONOMOUS MODE:
Click !' toast "Proposal created".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual proposal creation.

EXPECTED RESULT:
Proposal generation triggered with toast notification.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.37 — Pricing tiers displayed

HOW IT WORKS:
Proposal shows three pricing tiers: Starter (\$2,500/mo), Growth (\$5,000/mo), Enterprise (\$10,000/mo).

IN AI AUTONOMOUS MODE:
Tiers displayed.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same (static display).

EXPECTED RESULT:
Three pricing tiers visible with correct dollar amounts.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.38 — Proposal preview

HOW IT WORKS:
Full proposal preview visible before sending — includes scope, timeline, deliverables, pricing.

IN AI AUTONOMOUS MODE:
Full preview.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Complete proposal preview with all sections visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.39 — "Send Proposal" button

HOW IT WORKS:
Button marks proposal as sent to the client.

IN AI AUTONOMOUS MODE:
Send !' toast "Proposal sent".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Send button changes status to "Sent" with confirmation toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.40 — Proposal status tracking

HOW IT WORKS:
Status flow: Sent !' Viewed !' Under Review !' Accepted !' Rejected.

IN AI AUTONOMOUS MODE:
Auto-tracked.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual status updates.

EXPECTED RESULT:
Status visible per proposal with correct flow.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.41 — "Generate Contract" button

HOW IT WORKS:

Appears after proposal is accepted. Generates a contract document.

IN AI AUTONOMOUS MODE:

Click !' toast "Contract generated".

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Manual contract creation.

EXPECTED RESULT:

Contract generation triggered with toast on accepted proposals.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

4.42 — Renewal alerts

HOW IT WORKS:

60-day alerts before contract expiration. Visual warning on contracts nearing end date.

IN AI AUTONOMOUS MODE:

Auto-monitored. Alert shown.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same (view-only alerts).

EXPECTED RESULT:

Contracts near expiration show warning indicator.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

4.43 — GHL sync status displayed

HOW IT WORKS:

CRM Sync tab shows GoHighLevel connection status.

IN AI AUTONOMOUS MODE:

Connection status with last sync time.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

GHG sync status card visible with connection indicator.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

4.44 — HubSpot sync status displayed

HOW IT WORKS:

Shows HubSpot CRM connection status and sync health.

IN AI AUTONOMOUS MODE:

Status displayed.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

HubSpot status card visible.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

4.45 — "Partner Close" flag on deals

HOW IT WORKS:

Flag a deal for partner closing — auto-pushes to GHG sub-account for partner handling.

IN AI AUTONOMOUS MODE:

Flag !' auto-sync !' toast.

IN HYBRID MODE:

Flag !' sync with review.

IN HUMAN CONTROLLED MODE:

Manual flag !' manual sync.

EXPECTED RESULT:

Partner Close flag visible and functional with toast.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

4.46 — Bidirectional sync indicator

HOW IT WORKS:
Indicator showing that changes sync both ways between PMG OS and external CRMs.

IN AI AUTONOMOUS MODE:
Bidirectional indicator visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Bidirectional sync arrow or indicator visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.47 — Sync error queue

HOW IT WORKS:
Failed sync attempts shown in a queue with retry buttons.

IN AI AUTONOMOUS MODE:
Error queue with auto-retry.

IN HYBRID MODE:
Error queue with manual retry.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Failed syncs listed with "Retry" buttons.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.48 — "View in GHL" link

HOW IT WORKS:
Button to open the deal/contact in GoHighLevel (may not open in demo).

IN AI AUTONOMOUS MODE:
Link button present.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"View in GHL" button visible (opens or shows toast in demo).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

4.49 — Last sync timestamp

HOW IT WORKS:
Shows when the last successful sync occurred.

IN AI AUTONOMOUS MODE:
"Last sync: X min ago" visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Timestamp showing last sync time is visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

SECTION 5: MARKETING (5 Tabs / 5 Agents)

5.1 — Marketing page loads

HOW IT WORKS:
Navigate to Marketing. Page loads with 5 tabs.

IN AI AUTONOMOUS MODE:
All content loaded with AI features active.

IN HYBRID MODE:
Same with mode banner.

IN HUMAN CONTROLLED MODE:
Same with AI buttons hidden.

EXPECTED RESULT:
Page loads without errors. 5 tabs visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.2 — 5 tabs visible

HOW IT WORKS:
Tabs: Content Strategy, Campaigns, SEO & Growth, Orchestrator, Competitor Intel.

IN AI AUTONOMOUS MODE:
All 5 visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 5 tab labels in the tab bar.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.3 — Default tab selected

HOW IT WORKS:
Content Strategy tab selected on load.

IN AI AUTONOMOUS MODE:
Content Strategy active.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Content Strategy tab highlighted with its content shown.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.4 — Clicking each tab

HOW IT WORKS:
Click all 5 tabs. Each switches without errors.

IN AI AUTONOMOUS MODE:
All work.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Each tab switch shows correct content. No errors.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.5 — Content calendar view

HOW IT WORKS:
Shows planned content across channels in a calendar or list format.

IN AI AUTONOMOUS MODE:
Auto-populated calendar.

IN HYBRID MODE:
AI-suggested content for review.

IN HUMAN CONTROLLED MODE:
Empty or manually populated.

EXPECTED RESULT:
Content calendar visible with items across channels.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.6 — Channel breakdown

HOW IT WORKS:
Shows planned frequency: LinkedIn (3/wk), Facebook/IG (5/wk), Blog (2/mo), X (daily), YouTube (2/mo).

IN AI AUTONOMOUS MODE:
Full channel plan with frequencies.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual planning.

EXPECTED RESULT:
Channel names with posting frequency visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.7 — "Create Content" / "AI Content Plan" button

HOW IT WORKS:
Button to generate content or a full content plan.

IN AI AUTONOMOUS MODE:
Click !' toast "Content plan generated".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button hidden. Manual content creation.

EXPECTED RESULT:
Button click generates content plan with toast (in AI/Hybrid modes).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.8 — Content preview

HOW IT WORKS:
Generated content shown with a preview of how it will look.

IN AI AUTONOMOUS MODE:
Preview displayed.

IN HYBRID MODE:
Preview with review badge.

IN HUMAN CONTROLLED MODE:
No AI-generated content.

EXPECTED RESULT:
Content preview visible after generation.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.9 — "Write" / AI generate button per content

HOW IT WORKS:
Per-item button to draft content for a specific calendar item.

IN AI AUTONOMOUS MODE:
Click !' toast "Content drafted".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button hidden.

EXPECTED RESULT:
Per-item write button generates content with toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.10 — Content status flow

HOW IT WORKS:
Each piece of content moves through: Draft !' Review !' Approved !' Published.

IN AI AUTONOMOUS MODE:
Status visible on each item.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Status labels visible per content item with correct flow.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.11 — "Publish" button per content

HOW IT WORKS:
Changes content status to Published.

IN AI AUTONOMOUS MODE:
Click !' toast "Content published".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Publish button changes status with toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.12 — Content repurposing indicators

HOW IT WORKS:

Shows how one piece of content can be repurposed: 1 blog !' LinkedIn post + social + email + video.

IN AI AUTONOMOUS MODE:

Repurposing suggestions visible.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Static suggestions.

EXPECTED RESULT:

Repurposing indicators showing content transformation options.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.13 — Content generation gated in Human mode

HOW IT WORKS:

AI content creation buttons hidden in Human mode.

IN AI AUTONOMOUS MODE:

All AI buttons visible.

IN HYBRID MODE:

All AI buttons visible.

IN HUMAN CONTROLLED MODE:

AI creation buttons hidden.

EXPECTED RESULT:

In Human mode, "Create Content" and "Write" AI buttons not visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.14 — "Create Campaign" button

HOW IT WORKS:

Opens campaign builder for creating ad campaigns.

IN AI AUTONOMOUS MODE:

Click !' campaign builder !' toast.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Manual campaign building.

EXPECTED RESULT:

"Create Campaign" triggers builder with toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.15 — Campaign targets

HOW IT WORKS:

Campaign builder shows platform options: Facebook, LinkedIn, Google, YouTube.

IN AI AUTONOMOUS MODE:

All platforms selectable.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Platform options visible and selectable.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.16 — Campaign package display

HOW IT WORKS:

Shows campaign components: ad copy, targeting, budget, schedule, A/B variations.

IN AI AUTONOMOUS MODE:

Full package with AI-generated components.

IN HYBRID MODE:

Same for review.

IN HUMAN CONTROLLED MODE:

Manual input for all fields.

EXPECTED RESULT:

Campaign details visible with all 5 components.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.17 — "Review" !" "Launch" flow

HOW IT WORKS:
Campaigns require manual launch — the system NEVER auto-publishes ad campaigns.

IN AI AUTONOMOUS MODE:
Review first, then manual Launch button. Never auto-publishes.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Campaign has Review !" Launch flow. No auto-publishing.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.18 — Performance tracking metrics

HOW IT WORKS:
Shows cost per lead, cost per meeting, ROAS per platform.

IN AI AUTONOMOUS MODE:
Metrics auto-tracked.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same (view-only).

EXPECTED RESULT:
Performance metrics visible with dollar values and ratios.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.19 — Budget awareness

HOW IT WORKS:
Campaign shows budget limits. Default \$600 campaign budget.

IN AI AUTONOMOUS MODE:
Budget displayed.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Budget amount (\$600) visible in campaign details.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.20 — Campaign list with statuses

HOW IT WORKS:
Campaign list shows Active (green), Paused (yellow), Draft (gray) campaigns.

IN AI AUTONOMOUS MODE:
Status badges on campaigns.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Campaign list with colored status badges.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.21 — "Run SEO Audit" button

HOW IT WORKS:
Generates website audit with performance scores.

IN AI AUTONOMOUS MODE:
Click !" toast "SEO audit complete".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button hidden.

EXPECTED RESULT:
Audit button generates report with toast (in AI/Hybrid modes).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.22 — SEO audit scores display

HOW IT WORKS:
Visual scores for website performance areas (speed, content, technical, backlinks).

IN AI AUTONOMOUS MODE:
Scores displayed.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
No AI audit.

EXPECTED RESULT:
Audit scores visible with color coding.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.23 — Keyword research results

HOW IT WORKS:
Keywords with search intent classification and competition levels.

IN AI AUTONOMOUS MODE:
AI-researched keywords.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
No AI research.

EXPECTED RESULT:
Keyword list with intent + competition data.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.24 — Ranked fixes list

HOW IT WORKS:
SEO issues ranked by impact, not by ease. Most impactful fixes first.

IN AI AUTONOMOUS MODE:
Auto-ranked fixes.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Prioritized list of SEO fixes with impact indicators.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.25 — "Create Content" per keyword gap

HOW IT WORKS:
Each keyword gap has a button to create content targeting that keyword.

IN AI AUTONOMOUS MODE:
Click !" toast "Content created for keyword".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button hidden.

EXPECTED RESULT:
Per-gap content creation button works with toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.26 — Ranking/traffic tracking

HOW IT WORKS:
Position tracking and organic traffic trend charts.

IN AI AUTONOMOUS MODE:
Auto-tracked trends.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same (view-only).

EXPECTED RESULT:
Ranking position and traffic trend data visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.27 — SEO audit gated in Human mode

HOW IT WORKS:
AI SEO audit button hidden in Human mode.

IN AI AUTONOMOUS MODE:
Button visible.

IN HYBRID MODE:
Button visible.

IN HUMAN CONTROLLED MODE:
Button hidden.

EXPECTED RESULT:
In Human mode, "Run SEO Audit" button not visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.28 — "Plan Campaign" button

HOW IT WORKS:
Orchestrator creates multi-channel coordinated campaign plan.

IN AI AUTONOMOUS MODE:
Click !' toast "Campaign plan created".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual planning.

EXPECTED RESULT:
Plan button generates coordinated campaign with toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.29 — Timeline view

HOW IT WORKS:
Shows phased approach: Week 1 awareness !' Week 2 engagement !' Week 3 conversion.

IN AI AUTONOMOUS MODE:
Timeline auto-generated.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual timeline creation.

EXPECTED RESULT:
Phased timeline visible with week-by-week breakdown.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.30 — Full journey tracking

HOW IT WORKS:
Tracks: impression !' website visit !' form submission !' lead !' meeting !' client.

IN AI AUTONOMOUS MODE:
Full funnel tracking.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same (view-only).

EXPECTED RESULT:
Journey stages visible with metrics at each step.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.31 — Weekly campaign report

HOW IT WORKS:
Performance data with actionable recommendations.

IN AI AUTONOMOUS MODE:
Auto-generated weekly reports.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Raw data only.

EXPECTED RESULT:
Weekly report with performance data and recommendations.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.32 — "Refresh Competitor Analysis" button

HOW IT WORKS:
Triggers competitor scan and updates intelligence.

IN AI AUTONOMOUS MODE:
Click !' toast "Competitor analysis refreshed".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button hidden.

EXPECTED RESULT:
Refresh button triggers scan with toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.33 — Competitive battle cards

HOW IT WORKS:
Talking points against each competitor with strengths/weaknesses comparison.

IN AI AUTONOMOUS MODE:
AI-generated battle cards.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Static battle cards.

EXPECTED RESULT:
Battle cards visible with competitor comparison points.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.34 — Gap identification

HOW IT WORKS:
Identifies what competitors do NOT offer: "No competitor offers lead generation guarantees."

IN AI AUTONOMOUS MODE:
AI-identified gaps.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Static gap analysis.

EXPECTED RESULT:
Competitive gaps listed with specific differentiators.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.35 — Competitor alerts

HOW IT WORKS:
Notifications when competitors make moves (new services, pricing changes, etc.).

IN AI AUTONOMOUS MODE:
Auto-monitored alerts.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual tracking.

EXPECTED RESULT:
Competitor alert notifications visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

5.36 — Competitor analysis gated in Human mode

HOW IT WORKS:
AI scan button hidden in Human mode.

IN AI AUTONOMOUS MODE:
Button visible.

IN HYBRID MODE:
Button visible.

IN HUMAN CONTROLLED MODE:
Button hidden.

EXPECTED RESULT:
In Human mode, "Refresh Competitor Analysis" not visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.1 — Production page loads

HOW IT WORKS:
Navigate to Production. Page loads with 9 tabs and no runtime crashes.

IN AI AUTONOMOUS MODE:
All tabs and features loaded.

IN HYBRID MODE:
Same with mode banner.

IN HUMAN CONTROLLED MODE:
Same with AI buttons hidden.

EXPECTED RESULT:
Page loads without errors. No "Illegal constructor" crashes.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.2 — 9 tabs visible

Tab bar: Client Onboarding, Marketing Audit, Creative Production, Lead Generator, Campaigns & Funnels, Reporting, Integrations, Content Library, Quality Review.

IN AI AUTONOMOUS MODE:
All 9 tabs visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 9 tabs listed. May need horizontal scroll on small screens.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.3 — Default tab selected

HOW IT WORKS:
Client Onboarding tab selected on load.

IN AI AUTONOMOUS MODE:
Onboarding active.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Client Onboarding tab highlighted with content shown.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.4 — Clicking each of 9 tabs

HOW IT WORKS:
Click all 9 tabs. Each switches content without errors.

IN AI AUTONOMOUS MODE:
All 9 work.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All tab switches work correctly. No console errors.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.5 — Tab scroll behavior

HOW IT WORKS:
On smaller screens, tabs should be scrollable horizontally rather than wrapping or overflowing.

IN AI AUTONOMOUS MODE:
Tabs scrollable.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Tabs scroll horizontally on small screens. No cutoff.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.6 — ModelIndicator visible

HOW IT WORKS:
Mode badge in the page header showing current AI mode.

IN AI AUTONOMOUS MODE:
AI Auto badge.

IN HYBRID MODE:
Hybrid badge.

IN HUMAN CONTROLLED MODE:
Manual badge.

EXPECTED RESULT:
Mode indicator visible in Production page header.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.7 — Onboarding checklist displayed

HOW IT WORKS:
7-step sequential onboarding checklist for new clients.

IN AI AUTONOMOUS MODE:
Checklist with AI assistance options.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Checklist without AI buttons.

EXPECTED RESULT:
7 onboarding steps visible as a checklist.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.8 — Steps listed

HOW IT WORKS:
Steps: Collect brand assets, Get access credentials, Define target audience, Document services, Set monthly goals, Choose CRM, Configure partner sync.

IN AI AUTONOMOUS MODE:
All 7 steps listed.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 7 steps visible with descriptive labels.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.9 — "Complete Step" button per step

HOW IT WORKS:
Each step has a button to mark it complete, advancing the progress bar.

IN AI AUTONOMOUS MODE:
Click !' toast "Step completed". Progress updates.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"Complete Step" click shows toast and updates progress bar.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.10 — Progress bar

HOW IT WORKS:
Visual progress bar showing completion percentage (0% !' 100% as steps complete).

IN AI AUTONOMOUS MODE:
Progress updates with each step.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Progress bar visible and updates as steps are completed.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.11 — Completed steps visual

HOW IT WORKS:
Completed steps show a checkmark or green highlight to distinguish from pending steps.

IN AI AUTONOMOUS MODE:
Visual distinction.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Completed steps visually different (checkmark/green) from pending steps.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.12 — "Run Marketing Audit" button

HOW IT WORKS:
Appears after all 7 onboarding steps complete. Triggers the marketing audit process.

IN AI AUTONOMOUS MODE:
Button appears at 100% !" toast.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button may appear but without AI audit.

EXPECTED RESULT:
Button appears after all steps complete. Click shows toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.13 — "Generate 90-Day Plan" button

HOW IT WORKS:
AI creates a 90-day success plan for the client.

IN AI AUTONOMOUS MODE:
Click !" toast "90-Day Plan generated".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Button hidden.

EXPECTED RESULT:
In AI/Hybrid: button generates plan with toast. In Human: hidden.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

6.14 — 90-Day Plan gated in Human mode

HOW IT WORKS:
The AI plan generation button should be hidden in Human Controlled mode.

IN AI AUTONOMOUS MODE:
Button visible.

IN HYBRID MODE:
Button visible.

IN HUMAN CONTROLLED MODE:
Button hidden.

Same.

EXPECTED RESULT:
Mode change is immediate and global across all pages.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.24 — Per-Section Overrides section

HOW IT WORKS:
6 sections listed (Outreach, CRM, etc.) with override dropdowns.

IN AI AUTONOMOUS MODE:
6 section overrides visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
6 per-section override dropdowns visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.25 — Section override dropdown

HOW IT WORKS:
Options: Inherit Global, AI Autonomous, Hybrid, Manual Control.

IN AI AUTONOMOUS MODE:
4 options per dropdown.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Dropdown opens with 4 options.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.26 — "Inherit Global" shows current mode

HOW IT WORKS:
When "Inherit Global" is selected, it shows which mode will be inherited.

IN AI AUTONOMOUS MODE:
"Inherit (Auto)" shown.

IN HYBRID MODE:
"Inherit (Hybrid)" shown.

IN HUMAN CONTROLLED MODE:
"Inherit (Manual)" shown.

EXPECTED RESULT:
Inherit option shows the global mode name in parentheses.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.27 — Override persists per section

HOW IT WORKS:
Changing one section override does not affect other sections.

IN AI AUTONOMOUS MODE:
Independent overrides.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Each section override is independent.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.28 — Current Balance displayed (Wallet tab)

HOW IT WORKS:
Wallet tab shows \$360.29 prominently.

IN AI AUTONOMOUS MODE:
\$360.29 displayed.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Wallet balance \$360.29 visible prominently.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.29 — This Month Spent

HOW IT WORKS:
\$89.71 spent this month displayed.
IN AI AUTONOMOUS MODE:
\$89.71 shown.
IN HYBRID MODE:
Same.
IN HUMAN CONTROLLED MODE:
Same.
EXPECTED RESULT:
Spent amount \$89.71 visible.
YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A
YOUR NOTES:

9.30 — Monthly Budget

HOW IT WORKS:
\$450.00 monthly budget displayed.
IN AI AUTONOMOUS MODE:
\$450.00 shown.
IN HYBRID MODE:
Same.
IN HUMAN CONTROLLED MODE:
Same.
EXPECTED RESULT:
Budget \$450.00 visible.
YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A
YOUR NOTES:

9.31 — Budget Pools section

HOW IT WORKS:
4 pools: Standard, Premium, Creative, System.
IN AI AUTONOMOUS MODE:
4 pools listed.
IN HYBRID MODE:
Same.
IN HUMAN CONTROLLED MODE:
Same.
EXPECTED RESULT:
4 budget pool cards/rows visible.
YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A
YOUR NOTES:

9.32 — Pool progress bars

HOW IT WORKS:
Visual bars showing spent/budget ratio per pool.
IN AI AUTONOMOUS MODE:
Progress bars visible.
IN HYBRID MODE:
Same.
IN HUMAN CONTROLLED MODE:
Same.
EXPECTED RESULT:
Progress bars with fill proportional to spending.
YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A
YOUR NOTES:

9.33 — Pool agent labels

HOW IT WORKS:
Each pool shows which agents use it.
IN AI AUTONOMOUS MODE:
Agent labels visible.
IN HYBRID MODE:
Same.
IN HUMAN CONTROLLED MODE:
Same.
EXPECTED RESULT:
Agent names listed per budget pool.
YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A
YOUR NOTES:

9.34 — Spending Controls section

HOW IT WORKS:
3 spending controls listed.

IN AI AUTONOMOUS MODE:
3 controls visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
3 spending control items visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.35 — Auto-pause toggle

HOW IT WORKS:
Switch for "pause when balance low".

IN AI AUTONOMOUS MODE:
Toggle visible and clickable.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Auto-pause toggle switch works.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.36 — Low balance threshold input

HOW IT WORKS:
Number input, default \$50.

IN AI AUTONOMOUS MODE:
Input visible with \$50.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Number input shows \$50 default and accepts changes.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.37 — Max charge per agent input

HOW IT WORKS:
Number input, default \$5.

IN AI AUTONOMOUS MODE:
Input visible with \$5.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Number input shows \$5 default and accepts changes.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.38 — Switch toggles work

HOW IT WORKS:
Clicking switches changes their on/off state.

IN AI AUTONOMOUS MODE:
Toggles flip state.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Switches visually toggle between on and off states.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.39 — "Invite User" button (Users tab)

HOW IT WORKS:
Premium-styled button for inviting team members.

IN AI AUTONOMOUS MODE:
Button visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"Invite User" button visible in Users & Roles tab.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.40 — Current user card

HOW IT WORKS:
"Sher Shah Nawabi" with email and "Super Admin" badge.

IN AI AUTONOMOUS MODE:
User card visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Admin user card with name, email, and role badge.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.41 — User avatar initials

HOW IT WORKS:
"SN" initials in gradient circle.

IN AI AUTONOMOUS MODE:
Initials avatar visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"SN" initials displayed in a styled circle.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.42 — Role definitions section

HOW IT WORKS:
4 roles listed with descriptions.

IN AI AUTONOMOUS MODE:
4 roles visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
4 role cards with names and descriptions.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.43 — Role descriptions

HOW IT WORKS:
Super Admin (full access), Admin (manage all), Manager (section access), Viewer (read only).

IN AI AUTONOMOUS MODE:
Descriptions visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 4 role descriptions visible with permissions.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.44 — User count per role

HOW IT WORKS:
"1 user" for Super Admin, "0 users" for others.

IN AI AUTONOMOUS MODE:
User counts shown.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
User count visible per role.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.45 — 6 channels listed (Channels tab)

HOW IT WORKS:
Email, LinkedIn, Facebook, X (Twitter), YouTube, Slack.

IN AI AUTONOMOUS MODE:
6 channels visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 6 channel cards visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.46 — Channel icons

HOW IT WORKS:
Correct platform icon per channel.

IN AI AUTONOMOUS MODE:
Icons visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Each channel has its correct platform icon.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.47 — Connection status

HOW IT WORKS:
"Not Connected" badge per channel.

IN AI AUTONOMOUS MODE:
Status badges visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Connection status badges visible per channel.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.48 — Channel descriptions

HOW IT WORKS:
Description of what each channel does in the system.

IN AI AUTONOMOUS MODE:
Descriptions visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Description text visible per channel.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.49 — "Connect" button per channel

HOW IT WORKS:
Button to connect/configure each channel.

IN AI AUTONOMOUS MODE:
Buttons present.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"Connect" buttons visible and clickable.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.50 — Anti-Spam Protection section

HOW IT WORKS:
4 anti-spam rules with toggle switches.

IN AI AUTONOMOUS MODE:
4 rules visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
4 anti-spam rules with descriptions.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.51 — Anti-spam rules

HOW IT WORKS:
Email 50/day, LinkedIn 25/day, Social 30/week, Cool-down 2-5min.

IN AI AUTONOMOUS MODE:
All limits visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Rate limits visible with specific numbers.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.52 — Anti-spam toggles

HOW IT WORKS:
All switches default ON, clickable to toggle off.

IN AI AUTONOMOUS MODE:
Toggles work.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 4 toggles default ON and can be toggled.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.53 — 6 integrations listed (Integrations tab)

HOW IT WORKS:
GHL, HubSpot, Hunter.io, Zoom, Google Analytics, Stripe.

IN AI AUTONOMOUS MODE:
6 integrations visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
6 integration cards visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.54 — Integration descriptions

HOW IT WORKS:
Purpose of each integration.

IN AI AUTONOMOUS MODE:
Descriptions visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Description text visible per integration.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.55 — "Configure" button per integration

HOW IT WORKS:
Button to configure/connect each integration.

IN AI AUTONOMOUS MODE:
Buttons present.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"Configure" buttons visible per integration.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.56 — GHL sub-account mention

HOW IT WORKS:
"main account + partner sub-account" in GHL description.

IN AI AUTONOMOUS MODE:
Sub-account text visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
GHL description mentions partner sub-accounts.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.57 — 6 API key services listed (API Keys tab)

HOW IT WORKS:
Claude, OpenAI DALL-E 3, OpenAI GPT-4o, Runway ML, ElevenLabs, Hunter.io.

IN AI AUTONOMOUS MODE:
6 services listed.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
6 API key service cards visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.58 — Required/Optional badges

HOW IT WORKS:
Claude, DALL-E 3, Hunter.io = Required; GPT-4o, Runway, ElevenLabs = Optional.

IN AI AUTONOMOUS MODE:
Badges visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Required/Optional badges on correct services.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.59 — Monthly cost estimates

HOW IT WORKS:
~\$50, ~\$25, ~\$20, ~\$20, ~\$10, ~\$49 per service.

IN AI AUTONOMOUS MODE:
Costs visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Estimated monthly costs shown per service.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.60 — "Add Key" button per service

HOW IT WORKS:
Button to add API key for each service.

IN AI AUTONOMOUS MODE:
Buttons present.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"Add Key" buttons visible per service.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.61 — Estimated Monthly Cost card

HOW IT WORKS:
\$300-\$500 total estimate displayed.

IN AI AUTONOMOUS MODE:
Total estimate visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Total cost estimate card showing \$300-\$500 range.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.62 — Cost card styling

HOW IT WORKS:
Gold accent with Zap icon.

IN AI AUTONOMOUS MODE:
Gold styling visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Cost card has gold accent color and Zap icon.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.63 — Communication Compliance section (Legal tab)

HOW IT WORKS:
4 compliance rules listed.

IN AI AUTONOMOUS MODE:
4 rules visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
4 compliance rules with descriptions.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.64 — CAN-SPAM toggle

HOW IT WORKS:
With description, switch enabled.

IN AI AUTONOMOUS MODE:
Toggle ON.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
CAN-SPAM toggle visible, enabled by default.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.65 — GDPR toggle

HOW IT WORKS:
With description, switch enabled.

IN AI AUTONOMOUS MODE:
Toggle ON.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
GDPR toggle visible, enabled by default.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.66 — TCPA toggle

HOW IT WORKS:
With description, switch enabled.

IN AI AUTONOMOUS MODE:
Toggle ON.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
TCPA toggle visible, enabled by default.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.67 — Platform Rate Limits toggle

HOW IT WORKS:
With description, switch enabled.

IN AI AUTONOMOUS MODE:
Toggle ON.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Rate limits toggle visible, enabled by default.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.68 — Anti-Spam Monitoring section

HOW IT WORKS:
Email warm-up status, bounce rate, domain reputation.

IN AI AUTONOMOUS MODE:
Monitoring data visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Anti-spam monitoring metrics visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.69 — Contract Templates section

HOW IT WORKS:
NDA, Terms of Service, DPA, SLA templates listed.

IN AI AUTONOMOUS MODE:
4 templates visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
4 contract template cards visible.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

9.70 — Contract template buttons

HOW IT WORKS:
"View" and "Edit" buttons per template.

IN AI AUTONOMOUS MODE:
Buttons present.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
View and Edit buttons visible per template.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

9.71 — Opt-Out Management section

HOW IT WORKS:
Opt-out stats and master opt-out list.

IN AI AUTONOMOUS MODE:
Opt-out data visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Opt-out statistics and list visible.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

9.72 — Notification categories (Notifications tab)

HOW IT WORKS:
5 categories: Pipeline, Outreach, Production, Finance, System.

IN AI AUTONOMOUS MODE:
5 categories visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
5 notification categories listed.

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

9.73 — Per-category toggles

HOW IT WORKS:
In-App / Email / Slack toggle per category.

IN AI AUTONOMOUS MODE:
3 toggles per category.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
15 total toggles (3 per 5 categories).

YOUR STATUS (circle one): **PASS** / **PARTIAL** / **FAIL** / **N/A**

YOUR NOTES:

9.74 — Toggles clickable

HOW IT WORKS:
Switches change state on click.

IN AI AUTONOMOUS MODE:
All toggles work.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Clicking any toggle changes its on/off state.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.75 — Default toggle states

HOW IT WORKS:
All In-App toggles ON by default.

IN AI AUTONOMOUS MODE:
In-App toggles ON.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 5 In-App toggles are ON by default.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.76 — System status overview (Health tab)

HOW IT WORKS:
Overall system status indicator.

IN AI AUTONOMOUS MODE:
System status visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
System status overview card visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.77 — Active agents count

HOW IT WORKS:
Number of active agents out of 32.

IN AI AUTONOMOUS MODE:
All 32 agents active.

IN HYBRID MODE:
Some active, some on-demand.

IN HUMAN CONTROLLED MODE:
Most on standby.

EXPECTED RESULT:
Active agent count visible (e.g., "28/32 active").

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.78 — API calls metric

HOW IT WORKS:
Total API calls counter.

IN AI AUTONOMOUS MODE:
API calls count.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
API call count visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.79 — Database health indicator

HOW IT WORKS:
DB status: healthy, degraded, or down.

IN AI AUTONOMOUS MODE:
Status indicator.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Database health status visible (green for healthy).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.80 — Agent status list

HOW IT WORKS:
All 32 agents listed with individual status.

IN AI AUTONOMOUS MODE:
All 32 listed.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
32 agent entries visible with status per agent.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.81 — Per-agent details

HOW IT WORKS:
Last run time and total calls per agent.

IN AI AUTONOMOUS MODE:
Details visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Last run and call count visible per agent.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.82 — API health monitor

HOW IT WORKS:
Latency and uptime for AI services (Claude, OpenAI, etc.).

IN AI AUTONOMOUS MODE:
API health metrics.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
API latency and uptime displayed.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.83 — Database stats

HOW IT WORKS:
Live counts: Leads, Contacts, Assets in database.

IN AI AUTONOMOUS MODE:
Live counts.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Database record counts visible.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.84 — "Run Health Check" button

HOW IT WORKS:
Triggers comprehensive system health check.

IN AI AUTONOMOUS MODE:
Click !' toast "Health check complete".

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Health check button shows toast with results.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

9.85 — Health indicators color

HOW IT WORKS:
Green (healthy), yellow (degraded), red (down) per service.

IN AI AUTONOMOUS MODE:
Color-coded indicators.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Colored health indicators visible per service/agent.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

SECTION 10: AI MODE BEHAVIOR (Cross-Cutting)

10.1 — Switch to AI Autonomous via Settings

HOW IT WORKS:
Go to Settings !' AI Modes !' click AI Autonomous card. All pages should reflect AI Auto mode.

IN AI AUTONOMOUS MODE:
Active mode after switch. All AI buttons visible. No restriction banners.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
After switching, all pages show AI Auto behavior (no banners, all AI buttons).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.2 — Switch to Hybrid via Settings

HOW IT WORKS:
Go to Settings !' AI Modes !' click Hybrid card. All pages show Hybrid indicators.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
Yellow banners. Review badges. All AI buttons still visible.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
After switching, all pages show Hybrid behavior (yellow banners, review badges).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.3 — Switch to Human via Settings

HOW IT WORKS:
Go to Settings !' AI Modes !' click Manual Control card. AI buttons hidden across all pages.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
Blue banners. AI buttons hidden. Manual alternatives shown.

EXPECTED RESULT:
After switching, all pages show Human behavior (blue banners, AI buttons hidden).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.4 — Switch via header toggle

HOW IT WORKS:
Use the AI mode toggle in the top header/sidebar to switch modes instantly.

IN AI AUTONOMOUS MODE:
Instant mode switch.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Mode changes immediately without page refresh.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.5 — Mode persists on page navigation

HOW IT WORKS:
Switch mode, then navigate to different pages. Mode should remain the same on every page.

IN AI AUTONOMOUS MODE:
Mode persists.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Mode stays the same when navigating between pages.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.6 — Mode persists on page refresh

HOW IT WORKS:
Switch mode, then refresh the browser. Mode should be restored from the API/database.

IN AI AUTONOMOUS MODE:
Mode restored after refresh.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
After browser refresh, the mode is still the same as before.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.7 — Dashboard — no restriction banner (AI Auto)

HOW IT WORKS:
In AI Auto mode, Dashboard has no yellow or blue mode banner.

IN AI AUTONOMOUS MODE:
No restrictive banner.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
No mode restriction banner visible on Dashboard in AI Auto mode.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.8 — All AI buttons visible (AI Auto)

HOW IT WORKS:
In AI Auto: Find Prospects, Generate Leads, Auto-Assign, Create Content, etc. all showing.

IN AI AUTONOMOUS MODE:
All AI buttons present.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
All AI automation buttons visible across all pages.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.9 — Bot icons visible (AI Auto)

HOW IT WORKS:
AI automation badges and Bot icons shown throughout the app.

IN AI AUTONOMOUS MODE:
Bot icons visible.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Bot/AI icons visible on Dashboard, cards, and sections.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.10 — "AI Routed" / "Auto-Advanced" badges (AI Auto)

HOW IT WORKS:
Leads show "AI Routed", deals show "Auto-Advanced".

IN AI AUTONOMOUS MODE:
AI badges visible.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
AI processing badges visible on leads and deals.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.11 — Banner indicates Hybrid mode

HOW IT WORKS:
Yellow/blue banner on every page saying "Hybrid Mode".

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
Banner visible.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Hybrid banner visible on all pages.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.12 — AI buttons still visible (Hybrid)

HOW IT WORKS:
All AI action buttons remain accessible in Hybrid mode.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
All buttons present.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
AI buttons visible and clickable in Hybrid mode.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.13 — "Needs Review" / "Review Required" badges (Hybrid)

HOW IT WORKS:
Items show badges indicating human review is needed.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
Review badges visible.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Review-needed badges visible on leads, deals, and content items.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.14 — Human approval indicators (Hybrid)

HOW IT WORKS:
Some items marked as needing human sign-off before proceeding.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
Approval indicators visible.

IN HUMAN CONTROLLED MODE:
N/A.

EXPECTED RESULT:
Human approval markers visible on appropriate items.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.15 — Banner indicates Manual Control (Human)

HOW IT WORKS:
Blue banner on every page saying "Manual Control" or "Human Controlled".

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
Blue banner visible.

EXPECTED RESULT:
Manual mode banner visible on all pages.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.16 — AI automation buttons HIDDEN (Human)

HOW IT WORKS:
These buttons should be hidden: Find Prospects, Generate Leads, AI Build Funnel, Auto-Assign, Auto-Generate Monthly, Draft Contract, Scan for Updates, Auto-Update, Generate Morning Briefing.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
All listed buttons hidden.

EXPECTED RESULT:
All listed AI automation buttons are not visible in Human mode.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.17 — Manual alternatives available (Human)

HOW IT WORKS:
"Enter Prospects Manually" replaces "Find Prospects". Manual forms available.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
Manual alternatives shown.

EXPECTED RESULT:
Manual entry options visible where AI buttons were hidden.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.18 — Context-specific AI helpers hidden (Human)

HOW IT WORKS:
Generate Fix Plan, Auto-Fix Quality, and other contextual AI buttons hidden.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
Context AI buttons hidden.

EXPECTED RESULT:
Contextual AI helper buttons not visible in Human mode.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.19 — View/Read-only features still work (Human)

HOW IT WORKS:
Viewing invoices, documents, contracts — all read-only features still accessible.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
All view features work.

EXPECTED RESULT:
Read-only features (View, Download) still functional in Human mode.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

10.20 — Manual action buttons still work (Human)

HOW IT WORKS:
"Mark Complete", "View", "Download", "Send" — manual actions still clickable.

IN AI AUTONOMOUS MODE:
N/A.

IN HYBRID MODE:
N/A.

IN HUMAN CONTROLLED MODE:
Manual buttons work.

EXPECTED RESULT:
Manual action buttons visible and functional in Human mode.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

SECTION 11: WALLET & BUDGET SYSTEM

11.1 — Wallet balance in header

HOW IT WORKS:
The wallet balance should be visible in the header/sidebar at all times, showing the current dollar amount.

IN AI AUTONOMOUS MODE:
Balance visible. Active spending in production.

IN HYBRID MODE:
Same display. Moderate spending.

IN HUMAN CONTROLLED MODE:
Same display. Minimal spending.

EXPECTED RESULT:
Dollar amount visible in header at all times.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

11.2 — Wallet balance stays static in dummy mode

HOW IT WORKS:
In demo/dummy mode, the wallet balance does not actually deduct when AI operations are triggered.

IN AI AUTONOMOUS MODE:
Balance static despite AI calls.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Balance remains the same before and after triggering AI actions.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

11.3 — Wallet display across all pages

HOW IT WORKS:
Wallet balance visible on Dashboard, Outreach, CRM, Marketing, Production, Admin, Finance.

IN AI AUTONOMOUS MODE:
Visible on every page.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Wallet balance visible when navigating to any page.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

11.4 — Wallet tab in Settings

HOW IT WORKS:
Settings !' Wallet tab shows full breakdown of balance, spending, and budget pools.

IN AI AUTONOMOUS MODE:
Full wallet details.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Wallet tab shows balance, spent, budget, and pools.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

11.5 — Budget pool visualization

HOW IT WORKS:
4 budget pools (Standard, Premium, Creative, System) with progress bars showing usage.

IN AI AUTONOMOUS MODE:
4 pools with bars.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
4 budget pool cards with progress bars.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

11.6 — Spending controls functional

HOW IT WORKS:
Auto-pause toggle, low balance threshold, max charge per agent — all work.

IN AI AUTONOMOUS MODE:
Controls functional.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Toggles flip state. Number inputs accept values.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

11.7 — Transaction history

HOW IT WORKS:
List of past wallet transactions viewable.

IN AI AUTONOMOUS MODE:
Transaction list.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Transaction history visible with dates and amounts.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

SECTION 12: BUTTON-TO-BUTTON FLOW (End-to-End Chains)

12.1 — Outreach full chain

HOW IT WORKS:
Find Prospects !' Plan Approach !' Draft Messages !' Send !' Follow-up !' Move to CRM. Every button in the chain should produce a toast. No dead ends.

IN AI AUTONOMOUS MODE:
Full chain works. All toasts fire.

IN HYBRID MODE:
Same with review steps.

IN HUMAN CONTROLLED MODE:
Manual chain. AI steps skipped.

EXPECTED RESULT:
Every button in the Outreach chain produces a toast. No silent failures.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

12.2 — CRM full chain

HOW IT WORKS:
Lead in CRM !' Score !' Set Meeting !' Prep Call !' Upload Transcript !' Create Proposal !' Send !' Mark Won. All produce toasts.

IN AI AUTONOMOUS MODE:
Full chain works.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual steps only.

EXPECTED RESULT:
Every button in the CRM chain produces a toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

12.3 — Production full chain

HOW IT WORKS:
Mark Won !' Start Onboarding !' Run Audit !' Create Content !' Quality Review !' Publish. All produce toasts.

IN AI AUTONOMOUS MODE:
Full chain works.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual steps only.

EXPECTED RESULT:
Every button in the Production chain produces a toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

12.4 — Finance chain

HOW IT WORKS:
Create Invoice !' Send !' Track Payment !' Revenue Dashboard. All produce toasts.

IN AI AUTONOMOUS MODE:
Full chain works.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Every button in the Finance chain produces a toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

12.5 — Admin chain

HOW IT WORKS:
Generate Briefing !' Go to action !' Complete Task. All produce toasts.

IN AI AUTONOMOUS MODE:
Full chain works.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Manual steps.

EXPECTED RESULT:
Every button in the Admin chain produces a toast.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

12.6 — No dead-end buttons

HOW IT WORKS:
Every clickable button across the entire app should lead to a next action, a toast notification, a navigation, or a clear visual result.

IN AI AUTONOMOUS MODE:
No dead ends.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Every button does something visible. No silent no-ops.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

12.7 — No "undefined" or "null" in toasts

HOW IT WORKS:
Check all toast messages. None should contain the text "undefined", "null", or display empty/broken data.

IN AI AUTONOMOUS MODE:
All toasts have meaningful content.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All toast titles and descriptions show real text, not "undefined" or "null".

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

12.8 — No blank/empty toast messages

HOW IT WORKS:
Every toast notification should have both a title and a description. No empty toasts.

IN AI AUTONOMOUS MODE:
Every toast has title + description.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All toasts have visible title and description text.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

SECTION 13: CONTENT & TERMINOLOGY STANDARDS

13.1 — No "leverage" in any UI text

HOW IT WORKS:
Search the entire UI for the word "leverage". It should not appear in any button text, heading, description, toast, or generated content.

IN AI AUTONOMOUS MODE:
Word not present.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
The word "leverage" does not appear anywhere in the UI.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

13.2 — No "synergy" in any UI text

HOW IT WORKS:
Search for "synergy". Banned word.

IN AI AUTONOMOUS MODE:
Not present.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"synergy" not present in any text.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

13.3 — No "cutting-edge" in any UI text

HOW IT WORKS:
Search for "cutting-edge". Banned word.

IN AI AUTONOMOUS MODE:
Not present.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"cutting-edge" not present in any text.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

13.4 — No "game-changing" in any UI text

HOW IT WORKS:
Search for "game-changing". Banned word.

IN AI AUTONOMOUS MODE:
Not present.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"game-changing" not present in any text.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

13.5 — No "innovative" in any UI text

HOW IT WORKS:
Search for "innovative". Banned word.

IN AI AUTONOMOUS MODE:
Not present.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
"innovative" not present in any text.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

13.6 — NIST referenced correctly

HOW IT WORKS:
NIST (National Institute of Standards and Technology) used properly in industry/compliance context.

IN AI AUTONOMOUS MODE:
Correct usage.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
NIST mentioned in proper cybersecurity context.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

13.7 — SOC 2 referenced correctly

HOW IT WORKS:
SOC 2 used in compliance/audit context.

IN AI AUTONOMOUS MODE:
Correct usage.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
SOC 2 mentioned in compliance context.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

13.8 — SIEM, EDR, MDR, XDR terminology

HOW IT WORKS:
Cybersecurity acronyms used naturally when discussing security services and solutions.

IN AI AUTONOMOUS MODE:
Used in context.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Acronyms used naturally in cybersecurity discussions.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

13.9 — Pricing tiers consistent

HOW IT WORKS:
Starter \$2,500/mo, Growth \$5,000/mo, Enterprise \$10,000/mo — same everywhere.

IN AI AUTONOMOUS MODE:
Consistent pricing.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All pricing references match: \$2,500 / \$5,000 / \$10,000.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

13.10 — Sample client names consistent

HOW IT WORKS:
SecureNet Solutions, CyberShield IT, DataVault MSP, Fortress Cybersecurity, ShieldOps Inc used throughout.

IN AI AUTONOMOUS MODE:
Consistent names.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Client names match the documented list everywhere.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

13.11 — "20 deals" promise visible

HOW IT WORKS:
The core guarantee "20 ready-to-close deals per month" referenced in Production and Reporting sections.

IN AI AUTONOMOUS MODE:
Promise referenced.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
20-deal guarantee mentioned in relevant sections.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

13.12 — Human tone in all content

HOW IT WORKS:
All UI text, descriptions, and generated content should sound natural and human — not robotic or AI-generated fluff.

IN AI AUTONOMOUS MODE:
Natural tone throughout.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All content reads naturally without obvious AI-generated patterns.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

SECTION 14: ERROR HANDLING & EDGE CASES

14.1 — AI call with 403 response

HOW IT WORKS:
In dummy mode, all AI endpoints return 403. The onError handler should catch this and show a toast with realistic hardcoded data instead of crashing.

IN AI AUTONOMOUS MODE:
Fallback toast shown. No crash.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
N/A — AI calls not triggered.

EXPECTED RESULT:
403 error produces a realistic toast. No blank screen or error page.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.2 — All mutation onError handlers

HOW IT WORKS:

Every API mutation (useMutation) in the app should have an onError handler with a realistic toast message.

IN AI AUTONOMOUS MODE:

All mutations handle errors.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

No unhandled mutation errors. All show toasts on failure.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.3 — Network timeout

HOW IT WORKS:

If the API takes too long, the app should show an error toast, not spin forever.

IN AI AUTONOMOUS MODE:

Timeout !' error toast.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Slow API shows error toast, not infinite spinner.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.4 — 401 unauthorized

HOW IT WORKS:

If the session expires, the API returns 401 and the app redirects to login.

IN AI AUTONOMOUS MODE:

401 !' redirect to login.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Expired session redirects to login page.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.5 — API server down

HOW IT WORKS:

If the API server is completely down, the app shows a connection error without crashing.

IN AI AUTONOMOUS MODE:

Connection error shown.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

App does not crash. Shows connection error message.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.6 — Double-click prevention on buttons

HOW IT WORKS:

Rapidly clicking a button should not trigger multiple API calls. Button should be disabled during pending state.

IN AI AUTONOMOUS MODE:

Button disabled during loading.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Button disables during processing. No duplicate calls.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.7 — Empty input validation

HOW IT WORKS:
Submitting forms with empty required fields should show validation errors.

IN AI AUTONOMOUS MODE:
Validation errors shown.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Empty required fields show validation messages.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.8 — Page refresh mid-flow

HOW IT WORKS:
Refreshing the page during an operation should recover state or gracefully handle the interruption.

IN AI AUTONOMOUS MODE:
State recovered or graceful fallback.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Refresh does not leave the app in a broken state.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.9 — Empty states for all lists

HOW IT WORKS:
Every list in the app should show a "no data" message when empty instead of blank space.

IN AI AUTONOMOUS MODE:
Empty states present.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All empty lists show helpful messages (not blank).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.10 — Long text truncation

HOW IT WORKS:
Long names, descriptions, or values should truncate with ellipsis instead of overflowing containers.

IN AI AUTONOMOUS MODE:
Text truncated properly.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Long text truncated with "..." — no overflow.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.11 — Content doesn't overflow containers

HOW IT WORKS:
No horizontal scrollbar on content areas. All content fits within its container.

IN AI AUTONOMOUS MODE:
No overflow.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
No horizontal scrollbar. Content stays within bounds.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.12 — Tab animation transitions

HOW IT WORKS:

Switching tabs should be smooth — no flickering, jarring jumps, or content flash.

IN AI AUTONOMOUS MODE:

Smooth transitions.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

Tab switches animate smoothly without visual artifacts.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.13 — Chrome rendering

HOW IT WORKS:

All features work correctly in Chrome browser.

IN AI AUTONOMOUS MODE:

All features work.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

No Chrome-specific rendering issues.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.14 — No console errors on load

HOW IT WORKS:

Open browser DevTools Console. Page load should not produce red error messages.

IN AI AUTONOMOUS MODE:

Clean console.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

No red error messages in browser console on page load.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.15 — No "Illegal constructor" errors

HOW IT WORKS:

Previously caused by using native Clipboard API name. Fixed by using ClipboardList from lucide-react.

IN AI AUTONOMOUS MODE:

No constructor errors.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

No "Illegal constructor" errors in console.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.16 — No React hook errors

HOW IT WORKS:

No "Invalid hook call" errors from incorrect hook usage.

IN AI AUTONOMOUS MODE:

No hook errors.

IN HYBRID MODE:

Same.

IN HUMAN CONTROLLED MODE:

Same.

EXPECTED RESULT:

No React hook errors in console.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.17 — No import/module errors

HOW IT WORKS:
All imports resolve correctly. No "module not found" errors.

IN AI AUTONOMOUS MODE:
All imports resolve.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
No import or module resolution errors.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.18 — Desktop layout (1280px+)

HOW IT WORKS:
Full sidebar, multi-column grids, all content visible without scroll on large screens.

IN AI AUTONOMOUS MODE:
Full desktop layout.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Full sidebar + multi-column layout on desktop.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.19 — Tablet layout (~768px)

HOW IT WORKS:
Sidebar collapses, grids reduce to 2-3 columns, content remains readable.

IN AI AUTONOMOUS MODE:
Responsive tablet layout.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Sidebar collapses. Grids reduce columns. Content readable.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.20 — Mobile layout (~375px)

HOW IT WORKS:
Hamburger menu replaces sidebar. Single column layout. No horizontal overflow.

IN AI AUTONOMOUS MODE:
Full mobile layout.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Hamburger menu + single column. No overflow.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.21 — Dashboard KPI cards responsive

HOW IT WORKS:
6 KPI cards reflow from 6 columns to 2 columns on smaller screens.

IN AI AUTONOMOUS MODE:
Cards reflow.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
KPI cards reflow from 6-col to 2-col on mobile.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.22 — Settings tabs responsive

HOW IT WORKS:
Settings 10 tabs scrollable or wrapped on mobile screens.

IN AI AUTONOMOUS MODE:
Tabs accessible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 10 tabs accessible on mobile (scroll or wrap).

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

14.23 — Production tabs responsive

HOW IT WORKS:
9 Production tabs scrollable on small screens.

IN AI AUTONOMOUS MODE:
Tabs scrollable.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All 9 tabs accessible via horizontal scroll on mobile.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

SECTION 15: VISUAL DESIGN & POLISH

15.1 — Dark theme consistent

HOW IT WORKS:
Navy/dark background across all pages. No white or light-colored page backgrounds.

IN AI AUTONOMOUS MODE:
Consistent dark theme.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
All pages have navy/dark background. No white sections.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

15.2 — Crimson accent color used

HOW IT WORKS:
Primary actions, CTAs, and important elements use crimson (#DC2626).

IN AI AUTONOMOUS MODE:
Crimson accents visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Primary buttons and CTAs use crimson color.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

15.3 — Gold accent for insights

HOW IT WORKS:
Insight cards and special elements use gold (#F59E0B) accent.

IN AI AUTONOMOUS MODE:
Gold accents on insights.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Insight/highlight elements use gold color.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

15.4 — Glass-card styling

HOW IT WORKS:
Cards use glassmorphism effect — semi-transparent background, subtle border, backdrop blur.

IN AI AUTONOMOUS MODE:
Glass effect on cards.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Cards have glass/transparent styling with visible borders.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

15.5 — Hover animations

HOW IT WORKS:
Cards and buttons scale up or glow on hover using framer-motion whileHover.

IN AI AUTONOMOUS MODE:
Hover animations work.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Hover effects visible on interactive elements.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

15.6 — Tap animations

HOW IT WORKS:
Buttons compress slightly on click using framer-motion whileTap.

IN AI AUTONOMOUS MODE:
Tap animations work.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Buttons show press effect on click.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

15.7 — Loading states

HOW IT WORKS:
Spinners or skeleton loaders shown during data fetching.

IN AI AUTONOMOUS MODE:
Loading indicators visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Loading states visible during data fetch, not blank areas.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

15.8 — Toast styling

HOW IT WORKS:
Toast notifications match the dark theme with readable text and appropriate colors.

IN AI AUTONOMOUS MODE:
Styled toasts.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Toasts have dark theme styling with clear text.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

15.9 — Badge styling consistency

HOW IT WORKS:
All badges (status, mode, category) use consistent border and text patterns.

IN AI AUTONOMOUS MODE:
Consistent badge styling.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Badges have consistent styling across all pages.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

15.10 — Icon consistency

HOW IT WORKS:
All icons from lucide-react with consistent sizing (16-20px).

IN AI AUTONOMOUS MODE:
Consistent icons.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Icons are same library, same size, properly aligned.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

15.11 — Font rendering

HOW IT WORKS:
Inter font renders cleanly at all sizes. No blurry or aliased text.

IN AI AUTONOMOUS MODE:
Clean font rendering.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Text is crisp and readable at all sizes.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:

15.12 — Gradient usage

HOW IT WORKS:
Premium gradients on CTA buttons and key elements (crimson to dark red, navy gradients).

IN AI AUTONOMOUS MODE:
Gradients visible.

IN HYBRID MODE:
Same.

IN HUMAN CONTROLLED MODE:
Same.

EXPECTED RESULT:
Gradient styling on key buttons and elements.

YOUR STATUS (circle one): PASS / PARTIAL / FAIL / N/A

YOUR NOTES:
